DNR Updates and Information

- Provided information about vapor-related resources and language available within the RR Program's database designed to assist with identification of sites impacted or potentially impacted by vapor related concerns.
- Shared information about an existing project to make progress on high-priority vapor-impacted sites.
- Shared a reminder about options for assigning continuing obligations at various project stages.

Discussion: Establishment of a Mitigation Contractor Certification Program

The subgroup chair provided an overview of the work completed to date by an ad hoc group to capture considerations for a potential program to certify mitigation contractors.

Assignments

- Individuals interested in contributing to the drafting or review of the paper related to a certification program for mitigation contractors should contact Edmund.Buc@terracon.com or Jennifer.Borski@wisconsin.gov.
- The ad hoc group anticipates that the VI subgroup will present the paper at a future meeting of the full EAG in the summer.

Adjourn
