

## **DRAFT rule revisions for 1/9/2019 Rule Development Meeting**

Comments on this draft may be sent to [DNRRRNR700input@wisconsin.gov](mailto:DNRRRNR700input@wisconsin.gov).

Subject matter (group/subgroup): Remedial action confirmation sampling

Author(s): Michael Prager

Changes (include treatment, list in order of rules):

### **NR 724.15 (2m) is created to read:**

NR 724.15 (2m) Unless otherwise directed by the department, the report shall include results from confirmation sampling of the impacted media that demonstrate that the remedy was successful and the remedial objectives have been met. The sampling shall be adequate to demonstrate that the remaining level of contamination is not likely to pose a threat to public health, safety or welfare or the environment. Confirmation sampling shall include a description of sampling procedures and maps that depict location of sampling.

Plain language explanation/analysis:

An explanation of the rule revisions above is available in [the white paper](#) on this topic that was presented at the September 5, 2019, Rule Development Meeting.

Comparable state or federal rules or policies:

This is generally required by most states and EPA.

Economic impact comments:

Because this is standard consulting practice, there is not an economic impact expected from this change.
