

# Welcome

# Issues & Trends: RR Program Updates

Issues & Trends - 2020 Wisconsin DNR Remediation & Redevelopment Program

#### Today's presentation will be recorded; posted to RR Program Training Library (dnr.wi.gov / search "RR Training Library")

Send questions or comments to DNRRRComments@Wisconsin.gov

#### Welcome

Use Zoom "raise hand" or "chat" features to ask questions

Click/tap on the Zoom window to select the "Participants" tab; then select "raise hand"

For those using phone audio, \*9 to raise hand/prompt to unmute/\*6

## If you're having technical problems, send a "chat" message to Ben Jaster

Today's presenters:

Jodie Peotter: Chief - Brownfields, Outreach & Policy Molly Schmidt: Program & Policy Analyst Mick Skwarok: RR Outreach Team Leader Jesse Papez: RR GIS Specialist

General **RR Program** and **Issues & Trends** Announcements

Issues & Trends - 2020 Jodie Peotter – Brownfields, Outreach & Policy Chief

#### Announcements

#### Most RR Program Staff Going Mobile

- Switching from office landlines to mobile service
- Process complete in early October 2020
- □ New mobile numbers at:
  - Staff email signature blocks
  - RR Program staff directory

<u>https://dnr.wi.gov/topic/Brownfields/documents/rr/rrphone.pdf</u>

DNR staff directory

<u>https://dnr.wi.gov/staffdir/\_newsearch/contactsearchext.aspx</u>

Current landline voicemail message

#### Announcements

#### Issues & Trends Scheduling

- □ Oct. 21 PFAS: Fate & Transport (Ginny Yingling)
- Nov. 18 Site Investigation: Scoping, SI Toolkit & Related Docs, SIR/SIWP Checklist
- Dec. 16 VI Mitigation and Screening Decisions, Scope & Timing

Current schedule and registration at: <u>dnr.wisconsin.gov/topic/Brownfields/Training.html</u>

#### Announcements

#### Training Library

Recordings of today's and future Issues & Trends can be found online dnr.wisconsin.gov/topic/Brownfields/TrainingLibrary.html

□ Opportunity to brush up on the VI Preferential Pathways issue in advance of the December VI webinar

#### Next Up: NR 700 Rules Update

# Molly Schmidt Program and Policy Analyst

# NR 700-799 Rule Changes

Issues & Trends - 2020 Molly Schmidt, Remediation & Redevelopment Program

- Background
   Content
- □Next steps

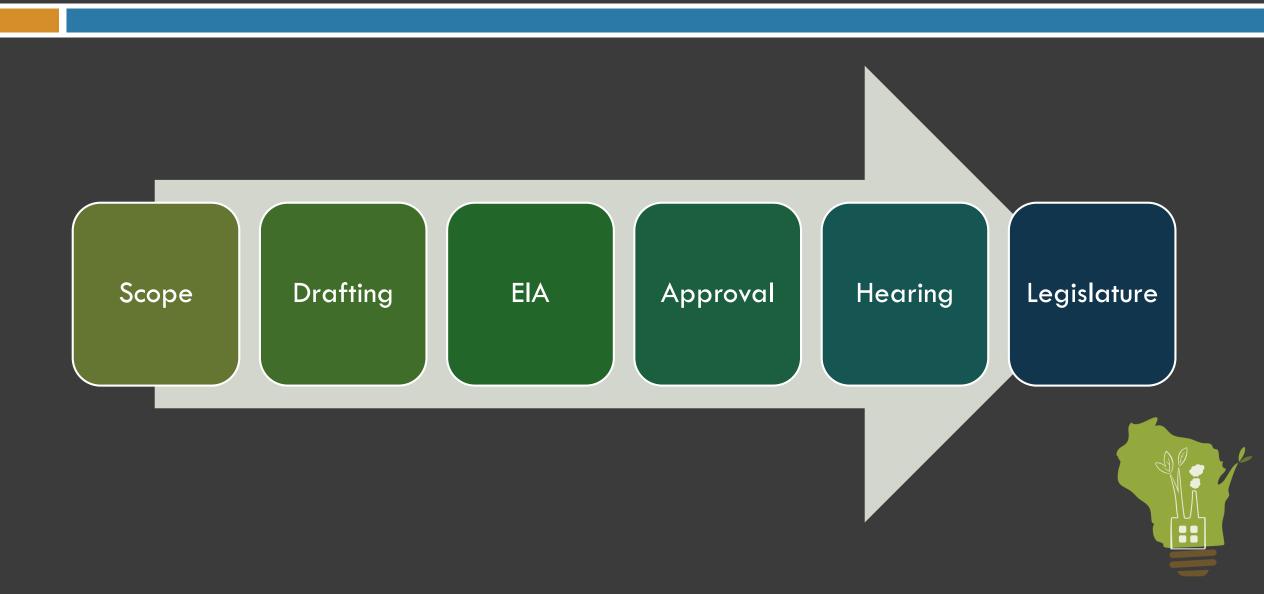

# Chs. NR 700-799; Environmental Protection – Investigation and Remediation of Environmental Contamination

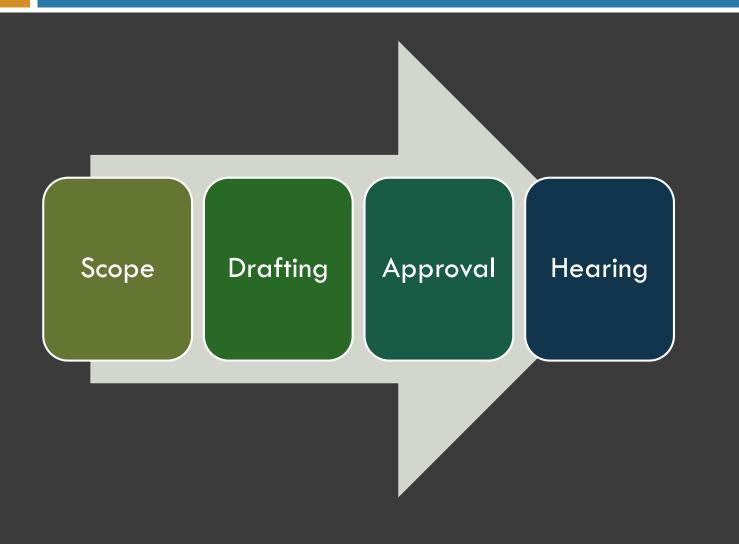

Purpose

Implement Act 204Implement Act 70

Update & clarify

Scope statements (both rules) - Jan. 2019
Drafting (both rules) - Feb. 2019 to Feb. 2020
Then:

Emergency rule adoption

Permanent rule EIA

Next: public hearing and comment (both rules)

# Act 204 & Sediment Rule Changes

Interim action continuing obligations
 Definitions, BRRTS info, and notifications
 Financial assurance - sediment engineering controls
 Financial assurance - sediment VPLE
 Contaminated sediment direction

# Act 204 CO for IA

Timeframe for submitting interim action report (45 days)
 New sections in NR 708 for:

- □IA CO documentation
- DNR response

Notification requirements (ch. NR 725)

# Act 204 definitions, database, notifications

Definitions revised for consistency
 Multiple chapters revised for
 Agreements regarding COs
 Notification of property owners
 Owners and occupants at properties with COs

## Act 204 FA for sediment engineering controls

 Financial assurance for contaminated sediment engineering controls
 New chapter NR 756 (emergency & permanent)
 Plan and compliance schedule
 Financial assurance costs

## Act 204 FA for VPLE sediment sites

Insurance and financial assurance for VPLE properties with contaminated sediment
 New chapter NR 758
 Full cleanup (emergency & permanent)
 Partial cleanup (permanent rule only)

Contaminated sediment

□ Site investigation process

- Scoping, CSM, sampling analysis and data validation
- Remedial action
  - Standards, O&M plans, long-term monitoring
- □Closure and CO
  - Criteria, letter language, ongoing responsibilities

#### □ VPLE properties

#### Act 70 VPLE properties

Definition of "property"

Property boundary changes

# **Clarifications and Updates - Rule Changes**

- Submittals
- Standards
- □ Fees
- **Timelines**
- Soil management
- □ Soil standards

#### Paper submittals eliminated

#### Property information requirements reorganized

Environmental laws and standards Drinking water laws □Site-specific standards Phase I and Phase II □ASTM standard practices

Enforcement fees & database fees Technical assistance and liability letter fees:  $\Box 2\%$  increase when rules final  $\Box 5\%$  increase every 3 years □New fees: □Interim action plans & reports Ch. NR 756 plans and inspections

#### Timelines

Hire consultant within 30 days
Submit schedule with NR 700.11 reports
Schedule for submission of further SIR information
Schedule for completion of closure requests

# NR 712 applies to closure submittals List of submittals in NR 726

Dredged contaminated sediment
Nonmetallic mines
Stockpiling

#### Soil standards

# Exposure assumptions for direct contact with contaminated soil

#### Less restrictive threshold for carcinogenic PAHs

# □ Public hearing $\rightarrow$ Oct. 16, 2020

- Materials, registration, and Skype link are at: <u>https://dnr.wisconsin.gov/topic/Brownfields/RuleChan</u> <u>ges.html</u>
- □ Public comment period → now to Oct. 23, 2020 □Send comments to <u>DNRRRNR700input@wisconsin.gov</u>

□ After public hearing and comment period:

Emergency rule remains effective (with extensions) until about summer 2021

Permanent rule moves to NRB adoption and Governor approval, then legislative review, then may become effective about summer 2021

Esri GIS Story Map: A New Way to Share Brownfield Success Stories

Issues & Trends - 2020 Mick Skwarok – Outreach Team Leader

# Esri GIS Story Map

#### <u>A graphical representation of Success Stories</u>

# Esri GIS Story Map

Easy and interesting way to share examples with your LGU clients.

- Brownfield redevelopment is possible.
- Get the right people in your corner.
- Included in the "Site Publication" for each entry is information that explains tools used at the site.
- □ Some also have videos.
- Recent DNR press release

# Esri GIS Story Map

- Success Stories link to "Site Publication" that contains "then current" information.
  - Project Managers

For current funding options, see: <u>https://dnr.wisconsin.gov/topic/Brownfields/Financial.html</u>

Current limitation on # of Success Stories
 Future of Esri GIS Story Map?

# Questions?

#### Mick Skwarok

- RR Program Outreach Team Leader

<u>Michael.Skwarok@Wisconsin.gov</u>

# What's new with RR Sites Map?

Issues & Trends - 2020 Jesse Papez - RR Program GIS Specialist

# What's new with RR Sites Map

## **Discussion Outline**

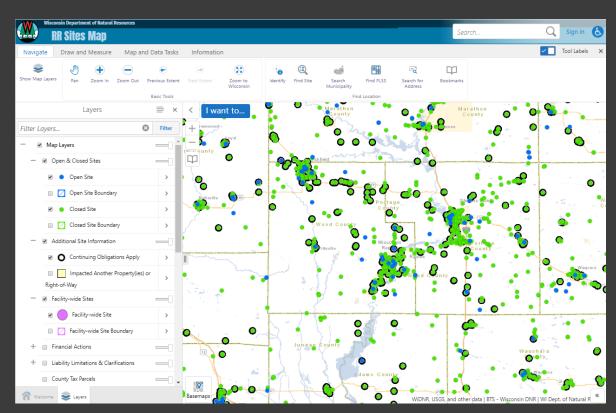

- I. RRSM Background
- II. What's new?
- III. What's to come? (user survey)
- IV. Live Demo!

# **RRSM Background**

#### About RRSM

- Built on Geocortex Essentials® framework
  - More tools, background programmability than out-of-the-box Esri<sup>®</sup> solutions
  - Allows for a more connected experience with BOTW
- Wide array of GIS tools
  - Draw/measure/buffer
  - Search/query
  - Add other GIS information/layers
  - Print maps, export images
  - Custom workflows
- Continuously changing to meet internal and external needs

# **RRSM Background**

#### Purpose of RRSM

- <sup>1</sup>/<sub>2</sub> of WI R&R Database (<u>WRRD</u>), along with BOTW
- WRRD provides notice of residual contamination and continuing obligations (COs) as required (Wis. Stats. § 292.12(3))
- RRSM provides a geographic location of these sites and links to the details and documentation stored in BOTW.
- Does <u>not</u> present areas of contamination, plumes, sampling results, etc. That information resides in BOTW documents.

### Very brief history of RRSM

- Formerly the "GIS Registry" (~2001 to 2018)
- Replacement for deed restrictions for sites with residual GW contamination, residual soil added in 2002
- RRSM released in 2005
- Layers expanded to include financial and liability activities
- Continued addition of layers, features, and tools
- What's next?...

# What's new?

## Some recent updates:

- New banner style to match DNR web redesign
- Added Qualified Opportunity Zones to Layer Catalog
- More sites included in liability clarification
- Added CIR imagery
- Added LiDAR derived contours
- Imagery auto-on in beyond 1:10,000
- County bookmarks
- Watch the Welcome panel for news!

# What's to come? – You tell us!

#### Just released: <u>RR Sites Map User Survey</u>

- Open today through the end of the year
- Short: 14 questions (or fewer)
- Link: <u>www.surveymonkey.com/r/RRSMSurvey</u> (also on the RRSM Welcome panel, more outreach to come)

#### Purpose:

- To better understand our customers and how they are using our GIS tools
- Give you the chance to let us know what you like, don't like, provide ideas or suggestions
- Information will guide where we focus development in GIS

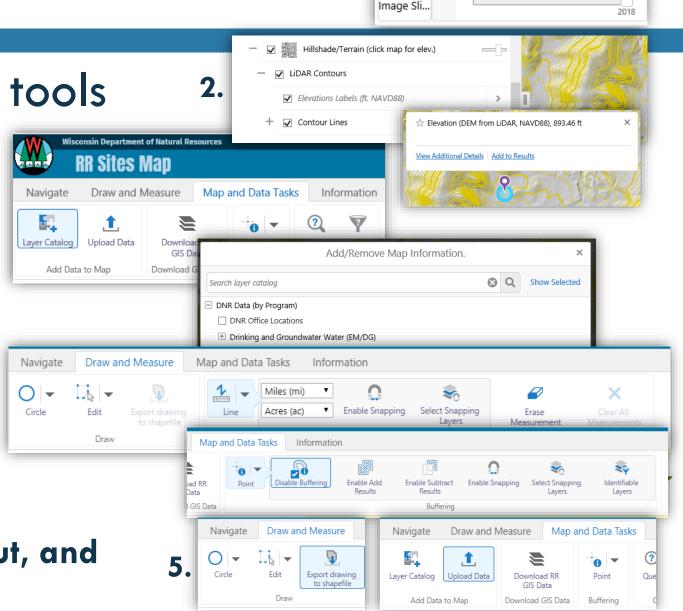

#### RR Sites Map User Survey

#### 5. Rate your experience with the following RRSM features (a minimum of one rating is required for this section Frequently used of tool Map navigation tools (Navigate Search by PLSS, BRRTS number, or address (Navigate toolbar) Layer Catalog (Map and Data Tasks toolbar Print/export map (Map and Data Tasks toolbar Buffering/query/filtering data (Map and Data Tasks toolbar) RR GIS data download/DNR On Data Portal (Map and Data Tasks Add external data/coordinates (Map and Data Tasks toolbar) Metadata/documentation/contac inks (Information toolbar) Aerial photography (and historical imagery time slider) Any other comments

# **RRSM Demos**

- Demo of some less-obvious tools
- (as time permits):
- Image Slider/basemap imagery
- 2. Terrain/LiDAR topographic information (new)
- 3. The Layer Catalog
- 4. Drawing/measuring/buffering
- 5. GIS data export/import

# Want more info? Feel free to reach out, and don't forget the survey!
