

ATTENTION MUSKY ANGLERS

Regulations for muskellunge differ for Green Bay rivers

Lower Menominee River, below Hattie Street Dam
Wisconsin: Open June 1 – Dec. 31, 2021 (open water only)
Michigan: Open June 5 – Dec. 31, 2021

1 fish, 54-inch minimum length on Wisconsin waters
1 fish, 50-inch minimum length on Michigan waters (Note: There is mandatory
registration of harvested fish)
Catch & Release season open year-round on Michigan side of the river only

Green Bay and other Green Bay tributaries in Wisconsin
including Peshtigo, Oconto, Pensaukee and Fox Rivers

Open May 29 – Dec. 31, 2021 (open water only)
1 fish, 54-inch minimum length

- Anglers are required to buy a fishing license of their resident state. Michigan residents must buy a Michigan license; Wisconsin residents must buy a Wisconsin license; MN or IL can buy nonresident license from either state, for example. You must carry a paper copy of your license because law enforcement from each state does not have the software ability to read other states electronic licenses.
- The catch & release season for musky is only open in Michigan waters of the river and is open all year. Anyone with a valid license described above (WI or MI or nonresident license) can fish on the MI side for catch & release season but only on the MI side.
- Anglers can launch on the Wisconsin side for the catch & release season but must fish only on the Michigan side.
- The minimum length for harvest in Wisconsin is 54 inches and the minimum length for harvest in Michigan is 50 inches. An angler cannot bring a harvested 50-inch fish over to the Wisconsin side of the river.
