Dispensary News

The Dispensary is undergoing extensive interior improvements. The floor was sanded and varnished. The beds received a coat of silver paint. New drapes have been selected for the doors. The waiting room is a grand assortment of Frieje, Cheneal, Cromwell, Chippendale and Queen Anne.

The remodeling program is under the expert supervision of the pill rollers, Shields and Hilton.

In an attempt to make the library and reading room of Company 3629 the best in the Sparta CCC District, work has progressed rapidly toward this goal. Under the supervision of the carpenters Wendell Krohn and Clyde Symons, the library has taken on the atmosphere of a home parlor.

New furniture has been installed in the reading room. There are three over-stuffed davenport, two leather topped davenport, a three piece wicker set in contrasting colors of red and maize. The floor is covered with an attractively printed linoleum and about one hundred and fifty new books have been added to afford more reading facilities.

With these new additions to its reading room, Camp Crivitz proudly boasts of the finest library in the District. The technical service and the men of Company 3629 cordially extend their invitation to the public to come and visit our comfortable library.

WHY?

Lt. E. O. Zarwell and Mr. R.P. Kennedy are making arrangements for an amateur Contest similar to the recent one held the Crivitz H. S. to be held at camp Crivitz in the near future. The date has not been set as yet, but it is believed it will be in the latter part of May. At this contest entries will be invited from the surrounding country to compete with any entertainers in our camp. Complete details will be announced as soon as possible.
