

Endangered Resources Preliminary Assessment

Find your Public Portal ID at the bottom of this page

Created on 12/20/2022. This report is a preliminary assessment.

DNR staff will be reviewing the ER Preliminary Assessment. ER Preliminary Assessments are only valid if the project habitat and water resources are protected. If an assessment is deemed invalid, a full ER review may be required even if the assessment indicated otherwise.

DNR staff will be reviewing the ER Preliminary Assessment. ER Preliminary Assessments are only valid if the project habitat and water resources are protected. If an assessment is deemed invalid, a full ER review may be required even if the assessment indicated otherwise.

Results

A search was conducted of the NHI Portal within a 1-mile buffer (for terrestrial and wetland species) and a 2-mile buffer (for aquatic species) of the project area. Based on these search results, below are your next steps.

An ER Review is strongly recommended. You are **strongly** encouraged to request a full ER Review, although it is not required (<https://dnr.wi.gov/topic/ERReview/Review.html>). If an Endangered Resources Review is requested for this project, it would provide recommended (voluntary) actions that could be taken during the course of the project. The preliminary assessment can be submitted with DNR permit applications and requests to demonstrate compliance with the Endangered Resources Review Process.

One (or more) of the following situations apply **and the species or record overlaps the project site**:

- The species recorded are special concern.
- The records are from natural communities or other natural features.
- The species recorded are threatened or endangered plants but are not protected due to the project occurring on private land or due to another type of exemption (i.e. agriculture, utility, etc.).

A copy of this document can be kept on file and submitted with any other necessary DNR permit applications to show that the need for an ER Review has been met. This notice only addresses endangered resources issues. This notice does not constitute DNR authorization of the proposed project and does not exempt the project from securing necessary permits and approvals from the DNR and/or other permitting authorities.

Project Information

Landowner name	John Q. Public
Project address	
Project description	MFL timber harvest
Order number	99-999-9999
Stand number	99

Project Questions

Does the project involve a public property?	No
Is there any federal involvement with the project?	No
Is the project a utility, agricultural, forestry or bulk sampling (associated with mining) project?	No
Is the project property in Managed Forest Law or Managed Forest Tax Law?	Yes
Project involves tree or shrub removal?	Yes
Is project near (within 100 ft) a waterbody or a shoreline?	Yes
Is project within a waterbody or along the shoreline?	No
