

Project Subject/Title: Oak Shelterwood Prescribed Burn

County: Douglas

TRS: T45N R14W sec. 4 & 5

Contact Person: Dale Rochon, WDNR

Type of Prescription: Rx burn

Year Initiated: 2003

Abstract/Prescription:

The project area is located on the Douglas County Forest. The 14 acre oak stand was thinned in 1999 and three years later a prescribed burn was implemented to kill 70 – 100% of the understory woody vegetation. The site has a good number of seedlings (no regen surveys were conducted). Flame heights were in the 2-5 foot range with backing flame heights in 6-10 inch range.

Results:

Monitoring is ongoing

Discussion/Recommendations:
