

HOW TO: Create a new customer account on GoWild

- Visit the website gowild.wi.gov. If you have never done business with the Wisconsin DNR before (purchased hunt/fish licenses, completed safety courses, or registered recreational vehicles) You will need to create a new customer account. Click on the “Create a new account” link.

The image shows two side-by-side screenshots of the GoWild login page. Both screenshots feature the 'go WILD' logo and the Wisconsin Department of Natural Resources branding. The left screenshot highlights the 'Log In' button with a red arrow, and below it, a link that says 'Create a new account or use Account Lookup'. The right screenshot also highlights the 'Log In' button with a red arrow.

- Create New Customer.** The first question will ask if you have never done business with the Wisconsin DNR before (purchased hunt/fish licenses, completed safety courses, or registered recreational vehicles). If you check Yes, you may already have an account and will be directed back to search for your record. If you check No, you will proceed. Enter the required information in the remaining fields. *Note: If the customer you are creating does not have a Driver License/State ID, you may skip the last two fields.*

The image shows a 'Create New Customer' form. It begins with a question: 'Have you previously purchased a hunting or fishing license, registered a recreational vehicle, or taken a safety education class in Wisconsin?' with 'No' selected. Next, it asks 'Are you a United States citizen?' with 'Yes' selected. A note for Wisconsin residents follows, explaining that they can use their Social Security Number, Date of Birth, and Driver's License or State ID if applicable. A note for nonresidents states that nonresident aliens can create a DNR customer record using their Visa or Passport number. The form then requires input for 'Social Security Number Required' (a text field), 'Date of Birth Required' (a date picker set to 'ex. 01/01/2024'), 'Driver's License/State ID Issuing State' (a dropdown menu with 'Select' as the current value), and 'Driver's License/State ID Number' (a text field). At the bottom are 'Cancel' and 'Next' buttons.

NOTE: If the system finds an account already on file with the information you provided, it will redirect you back to the search page and give you this error message:

 **Warning!** Your information matches an existing record. Please use this search to [find your account](#). 

- **Preferences and Residency.** Is the customer a resident of Wisconsin? If you are age 18 or over and select Resident, you will be required to enter a WI Driver License or WI State ID to confirm your residency. Select **Next**.

Preferences and Residency

Enter your Driver's License or State ID number and issuing state below.
To qualify for Wisconsin Resident pricing online, you must provide a valid Wisconsin Driver's License or State ID if you are over the age of 18. If you do not have a valid Wisconsin Driver's License or State ID (and are over the age of 18), you may continue as a NonResident or you can visit an agent location to provide evidence of residency. If your Wisconsin Driver's License or State ID is validated, you can use it as your hunting and/or fishing license in most instances (paper licenses are still required on boundary and outlying waters).

- **Create Username and Security Question (Optional)** – Go Wild gives you the opportunity to create a username and password to access your account in the future. **This step is optional for the initial login, but is required to be created on future logins.**

If you choose to skip, select the **Skip username selection >>** or **Skip** on the bottom of the page.

Create Username and Security Question

You may want to choose a username and password to enable you to log on to your DNR account more quickly. If you do not want to choose a username and password, you can continue to access your account via the Account lookup functionality. You can choose a username and password from your account profile if you change your mind.
