

2022 APM Meeting DNR - Industry

Madi Johansen, Carroll Schaal, Emily Hjalmarson, Amy Kretlow, Maureen Ferry, Jacob Dickmann, Michaela Kromrey, Michelle Nault.

January 27th.

Zoom Reminders

- All participants will be muted
- If you have a question, use the “raise hand” feature
 - Should be in the bottom corner under participants list
- During Q&A time meeting hosts will go to each participant in the order they raised their hands and unmute so they can speak.

Agenda

- Session 1 - General Updates and Reminders
 - 9- 11:30 AM (may end early)
- Session 2 – IT and Permitting Updates
 - 12:30 – 1:30 PM
- Session 3 – Technical Session
 - 1:45- 2:45 PM

These sessions will be recorded and posted on our website.

Staffing Updates

Carroll Schaal

Industry Staffing/Contact Updates

- Please let us know if:
 - You have new staff.
 - You have updated contact information.
 - You have preferences for communication (phone or email).
- Any other information that may help us work with you quickly and efficiently this year?

DNR Staffing Updates

- Intake Staff
 - Emily Hjalmarson will continue to manage pond permits.
 - Schuyler (pronounced Skylar) Todd will be assisting with pond permits.
 - Liz Rockow will continue to handle Intake for non-private permits.
- Other new staff updates
 - Greta H. will be joining the team in Madison to assist with AIS research grants and APM research topics.

DNR Staffing Updates

- Regional staff updates
 - Arthur Watkinson is the Lakes Biologist/APM Coordinator for SC WI.
 - Sue Graham retired last May
 - Michelle Soderling and Amanda Schmitz will be assisting Heidi Bunk, Craig Helker and Arthur Watkinson with permitting this year.
 - Colton Hutchinson will be assisting Scott Provost with permits this year.

An updated map of the point of contact for each region will be up on our website soon.

ALS Program Updates and Reminders

Amy Kretlow and Maureen Ferry

AIS Program Moving Forward

WDNR Changes in AIS:

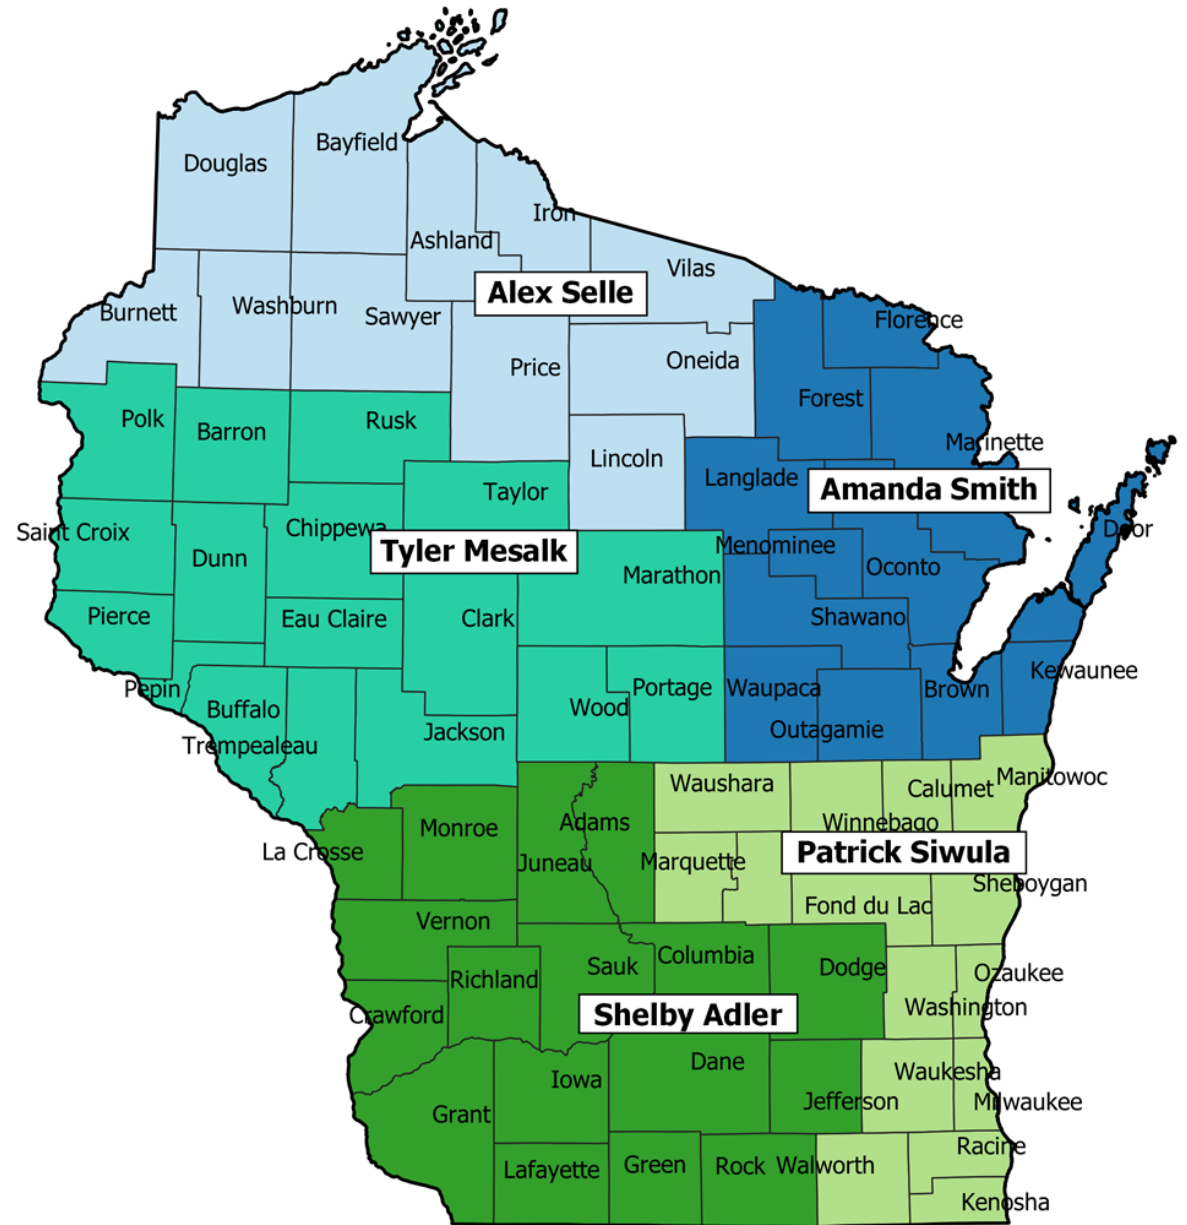

Five Regional AIS Staff

Pathways Approach

Lake Monitoring and Protection Network (LMPN Program)

Five Regional AIS Staff

- More stability with staff
- Consistency around the State
 - Roles and Responsibilities of staff
 - Communications
 - Training of new staff/partners

AIS Pathways Approach

WI Management Plan –

Goal 1: Prevent the introduction of new aquatic invasive species into Wisconsin

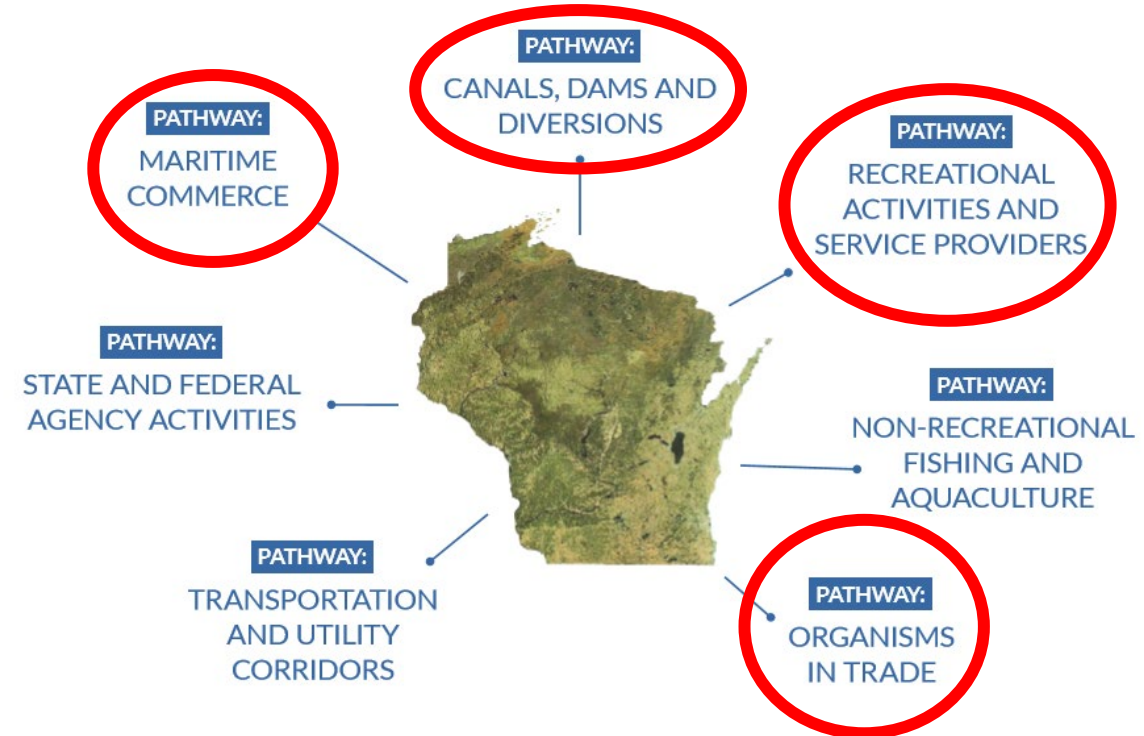

Goal 2: Contain the spread of aquatic invasive species in Wisconsin

Goal 3: Control existing populations of aquatic invasive species to minimize harmful impacts

Pathways:

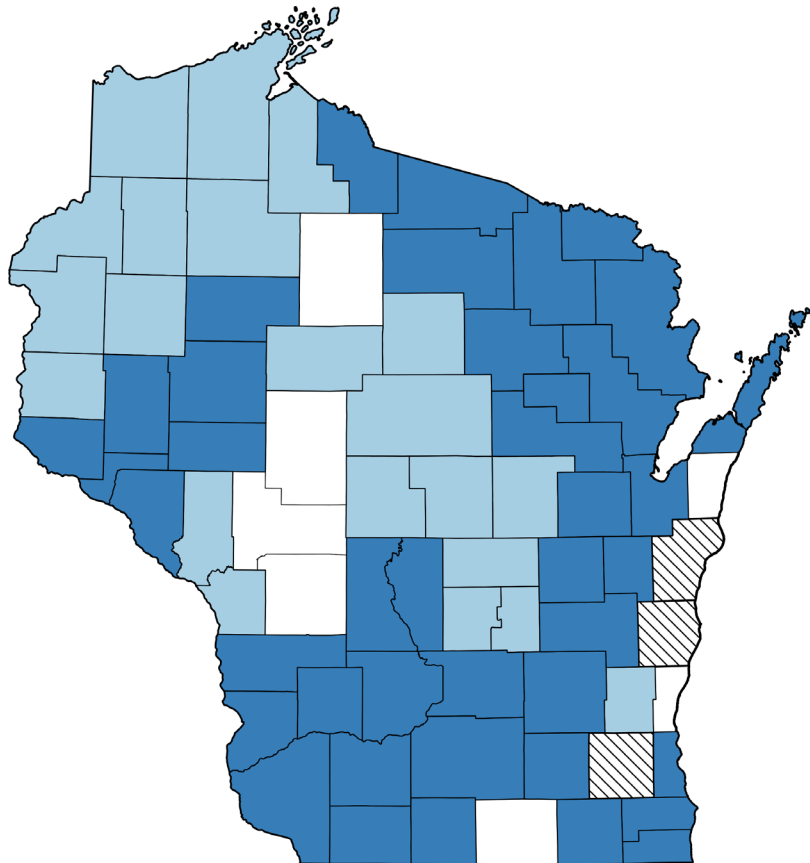

Proactive Approach vs. Reactive Approach

- Seven main pathways
- Sub-Pathways under each of the main pathways
- Priority assessments on pathways

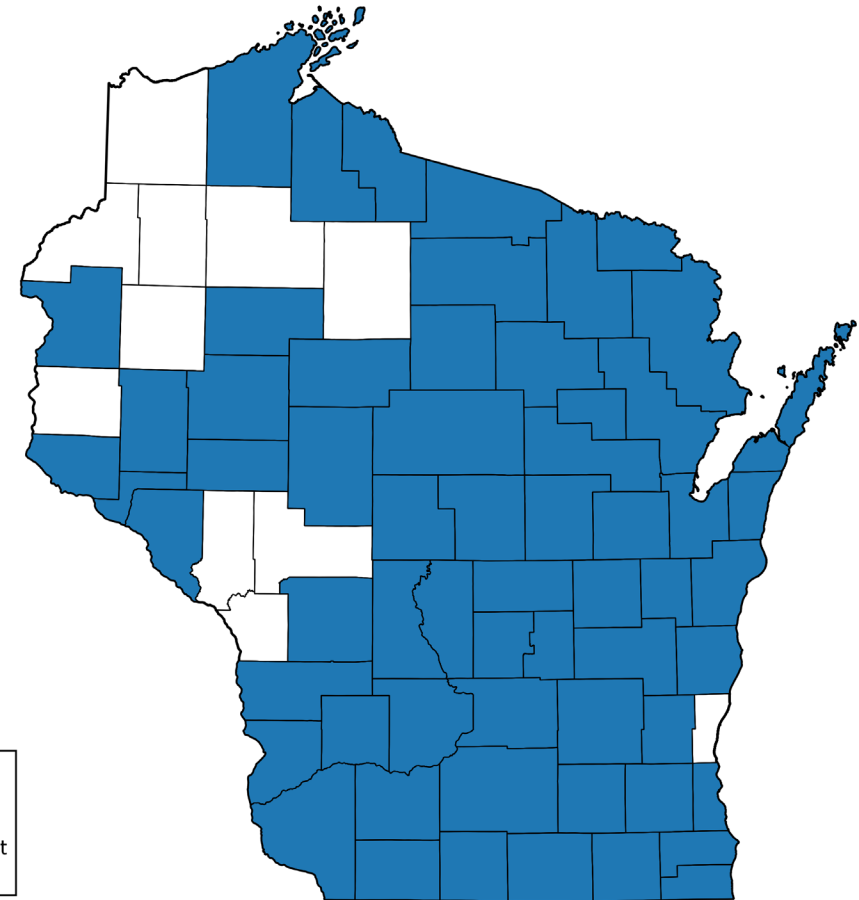

Lake Monitoring and Protection Network (LMPN Program)

2021 Coverage

*Estimated 2022 Map as of Oct. 11, 2021

Legend

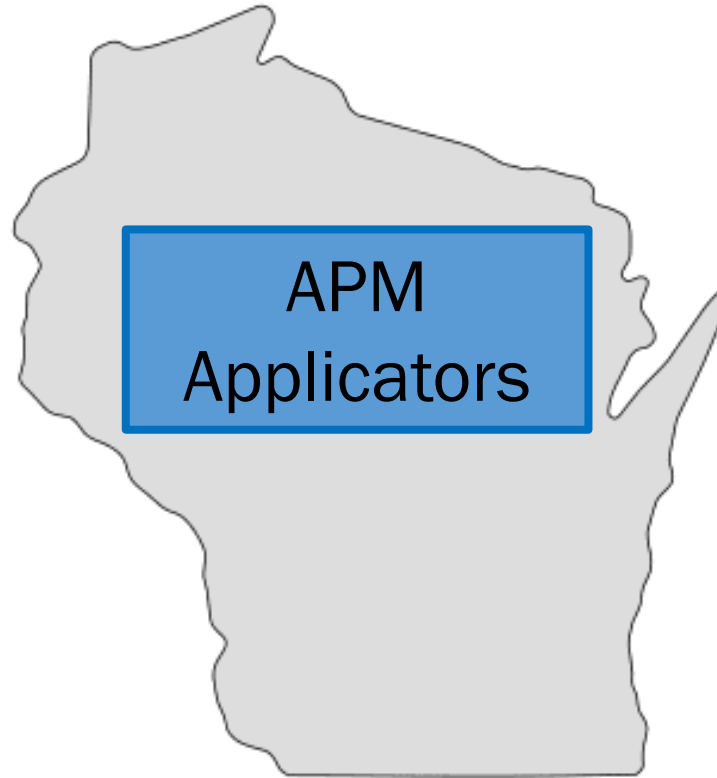

- New Lake Monitoring and Protection Network
- Legacy AIS Education, Prevention, and Planning Grant
- ▨ Interim Contract

Aquatic Invasive Species Monitoring

Wisconsin's AIS Monitoring

Extension

UNIVERSITY OF WISCONSIN-MADISON

C

Aquatic Invasive Species Efforts

The Wisconsin AIS Management Plan, which was updated and approved in 2019, outlines Wisconsin's approach to preventing and managing the undesirable impacts of aquatic invasive species and will be used to plan future work. By applying our 'Prevent, Contain, Control' goals to managing invasion pathways, we hope to further reduce the impacts of these unwanted species.

See the [Wisconsin Aquatic Invasive Species Management Plan \[PDF\]](#) for more information.

Contact information

For information on Lakes in Wisconsin, contact:

[Wisconsin DNR Lakes](#)
Division of Water
Bureau of Water Quality

AQUATIC, SHORELINE AND WETLAND

Learn what species are invasive by reviewing the [NR40 factsheets](#).

REPORTING INSTRUCTIONS

IF IT IS AN AQUATIC OR WETLAND PLANT OR ANIMAL

- **Photograph** Take a digital photo(s) of the species in the setting where it was found and include a common object in the photo for size reference.
 - For plants include flowers, leaves, stem arrangement, and fruits.
 - For animals include shells, top and bottom and any identifying characteristics.
- **Collect** up to 5 intact specimens to aid identification.
 - For plants, try to get the root system, stems, leaves, flowers, and seeds. Place plants in a Ziplock bag with a damp paper towel.
 - For animals, try to get the entire animal if possible. Place animals in a jar with water or ethanol. Place on ice and store in a refrigerator as soon as possible.
- **Record** details using:
 - Your planned project data in the Surface Water Integrated Monitoring Systems (SWIMS); OR
 - [Aquatic Invasive Species Incident Report \[PDF\]](#) ; OR
 - Just take notes.
- **Submit** the photos, specimen and form/notes to the [DNR Aquatic Invasive Species Regional Coordinator/Point of Contact](#) and SWIMS.

BOAT, GEAR AND EQUIPMENT DECONTAMINATION AND DISINFECTION MANUAL CODE 9183.1

BEST MANAGEMENT PRACTICES

The general public are required to follow decontamination steps identified in s. [NR 40.02\(44\)](#) and [NR 40.07](#) to prevent the spread of invasive species. This webpage outlines best management practices (BMPs) for the boat, gear and equipment. Decontamination and disinfection manual code, which requires all Wisconsin Department of Natural Resources employees, agents, and permittees that transport equipment between waters to take additional prevention steps. If you are unsure if you are required to follow this guidance, please review the [Common Questions and Answers](#) [PDF]. If you still have questions, contact the person that issued your contract or permit or the DNR [invasive species team](#).

1. [Manual Code #9183.1](#) [PDF]
2. [Full BMPs for boat, gear and equipment decontamination](#) [PDF]
3. Check for species present in the work area using one of the following tools:
 - [Lakes and aquatic invasive species mapping tool](#)
 - [Lakes, Rivers and Wetlands with Aquatic Invasives](#)
4. Select the best [disinfection method for species present](#)

Maureen.ferry@Wisconsin.gov

(608) 261-7463

[Aquatic Invasive Species Contacts - Aquatic Invasive Species - Regional Coordinator/Point of Contact \(wi.gov\)](#)

Permit Reminders

Madi Johansen

QAQC

A member of the public should be able to answer this question when looking at a permit

“What was permitted on X waterbody? How many acres will be managed? What species are to be treated? What chemicals or equipment will be used?”

QAQC

- Specificity in permits for non-private waters
 - Clear and concise herbicide list
 - Clearly delineated treatment areas
 - Public notice requirements met, when appropriate
- These are not new requirements

Non-private ponds

- Issue arose during permit review of private ponds in 2020
 - Program priority to assess private pond permits in detail to confirm accuracy
- With urban development, some ponds are not considered “private” under existing NR 107 rule.
- Some waterbodies required to do public notice due to the way the ponds are classified

Permit Reminders – Applicant contact info

- Applicant Information must be on the form correctly.
 - Your business information is not correct
 - Missing information is not correct.
- Personal contact information has been removed from publicly viewable permits once they are submitted.

Permit Reminders - Responsibilities

- If you are submitting a permit for an applicant, you are responsible to meet all of the requirements of the permit form and NR 107 or 109.
 - If the applicant is taking some part of the responsibility, notifying their neighbors of a treatment as an example, you should ensure that they are following the correct procedure and adequately informing all appropriate parties.

Permit reminders – Map Quality

- What's a good map?
- https://dnr.wi.gov/lakes/plants/forms/current_form/Map.pdf

We should be able to look at your map, your control areas on the form and the planned control method to figure out what's being proposed.

Permit Issuance

- Permits should be issued within 10-15 business days
 - Unless placed on hold
- Lack of planning not our emergency
 - Please submit at least 15 business days prior to when trying to treat
- If haven't heard by the 15th business day, check in with the biologist

E-Check Payment Option

- Avoids credit card fee
- Some business bank accounts have debit blocks/filter that don't allow e-check payments
- Provide your bank the DNR's Company ID#s to allow funds to be drawn
 - F396006436
 - K396006436

15-minute break

Questions on Previous Section?

10-15 minutes

Point Intercept Database

Michaela Kromrey

Aquatic Plant Point Intercept Database (dnrappi)

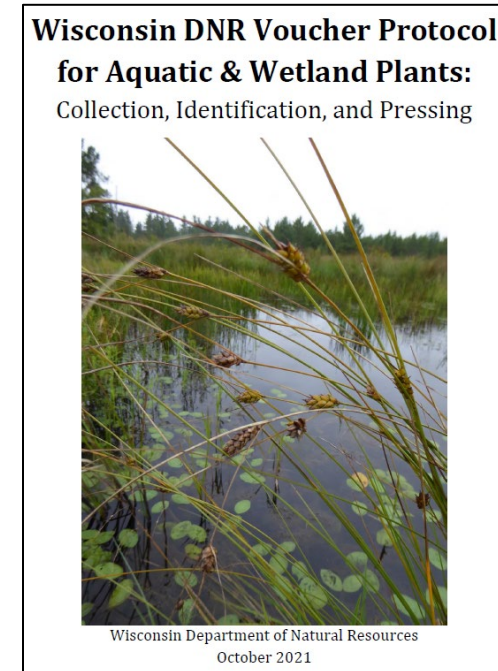

- APDB → APPI
- actively working to make the PI data publicly available
- currently using the same excel entry workbook
 - this might change once oracle appi database finalized
- For now data submissions, data requests, and PI grid requests should be sent to :
 - DNR Baseline Aquatic Plant Survey (dnrbaselineaquaticplants@wisconsin.gov)
 - Michelle Nault (michelle.nault@wisconsin.gov)
 - Michaela Kromrey (michaela.kromrey@wisconsin.gov)

PI data submission

- Occasional disconnect with PI submissions
 - not getting added to the appi
- Send completed PI surveys to DNR Baseline in addition to the normal people you send data too
 - DNR Baseline Aquatic Plant Survey
(dnrbaselineaquaticplants@wisconsin.gov)
 - Michelle Nault (michelle.nault@wisconsin.gov)
 - Michaela Kromrey (michaela.kromrey@wisconsin.gov)

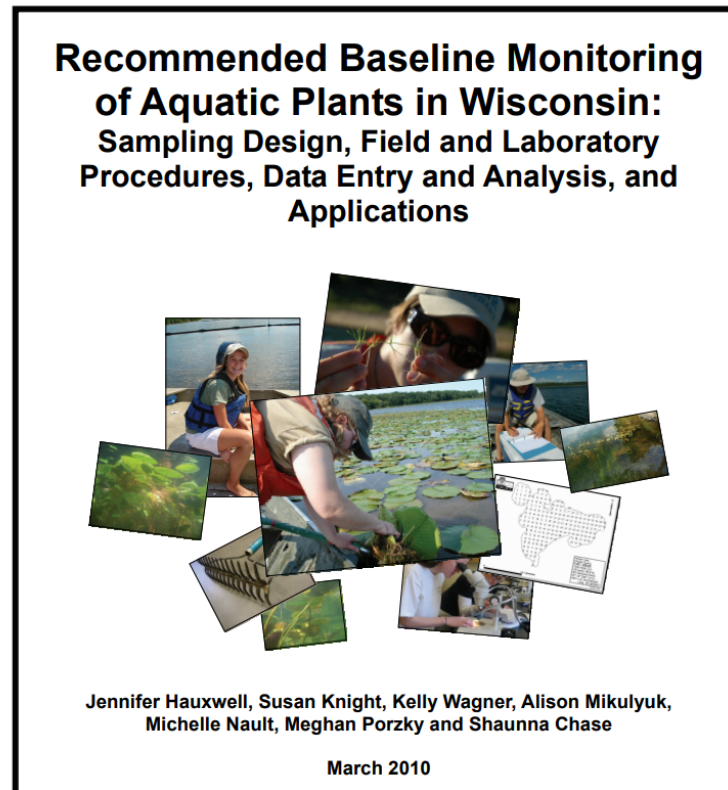

Vouchers

- Piloting APTA (aquatic plant taxonomic assurance)
- new vouchering documentation
- trying to standardize quality
 - vouchering is in the PI protocol

Review PI protocol

- PI protocol on UWSP website
 - <https://www.uwsp.edu/cnr-ap/UWEXLakes/Documents/ecology/Aquatic%20Plants/PI-Protocol-2010.pdf>

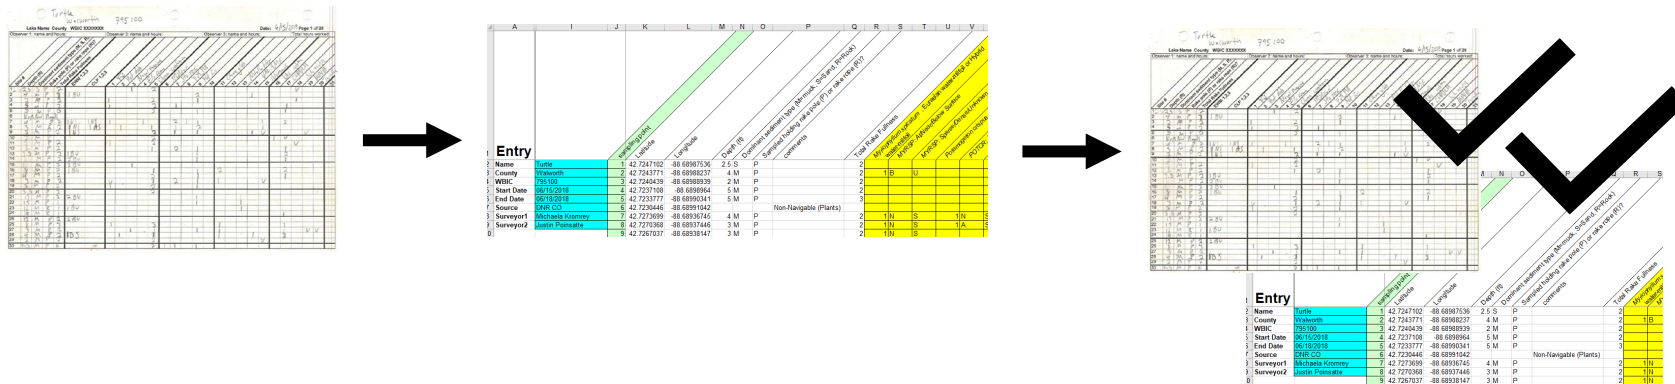

Use Blank Entry form

- Use new/blank copy of the PI Entry sheet each time you enter data.
 - appendix c. on UWSP website
- Please do not edit the entry sheet this exact format is used to upload survey

[illegible]

QA reminders

- Double check the data entries when transcribing from paper to excel workbook
 - catch transcribing errors
 - shifting a row/column silent error not caught in the QA process

QA reminders

- Add notes to the ‘Boat Survey’ sheet
- Notes could include:
 - voucher information on uncommon species
 - survey comments
 - relevant information
 - ex. If there was a reason why standard protocol was not followed write in BS sheet. (lost pole rake in deep hole used rope for rest of survey)
- This is checked before upload
- Clean data saves time, less email communication on data clarifications

Common data entry mistakes

- CHECK species list on the stats page. Make sure all species listed are correct.

WISCONSIN DEPARTMENT OF NATURAL RESOURCES | DNR.WI.GOV

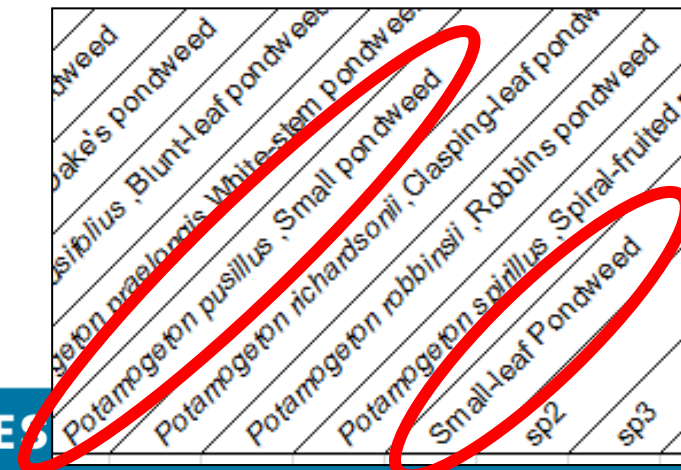

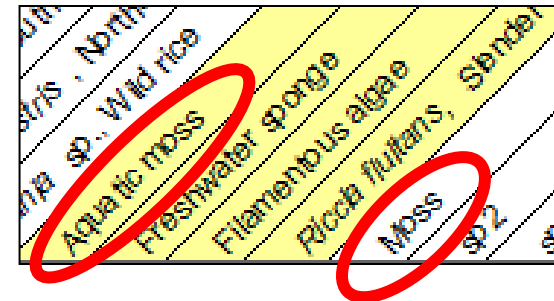

Typo plant names

- Common error: entering a species that is not on the lake
- Seriousness level:    If a species doesn't look like it should be on a lake QA staff will contact you about voucher/ID. If not spotted, silent error incorporated into the app

STATS		Total vegetation	<i>Myriophyllum spicatum</i>	<i>Potamogeton crispus</i>	<i>Acutus emarginatus</i>	<i>Alisma plantago</i>	<i>Blattaria</i>	<i>Ranunculus abortivus</i>	<i>Brauneria schreberi</i>	<i>Calla palustris</i>	<i>Callitriche heterophylla</i>	<i>Callitriche heterophylla</i>	<i>Callitriche palustris</i>	<i>Carex comosa</i>	<i>Calamagrostis aquatica</i>	<i>Cenactophyllum demersum</i>	<i>Chara sp...</i>	<i>Comarum palustre</i>	<i>Decodon verticillatus</i>	<i>Dulichium auriculatum</i>

#visual sightings		1												1						
present (visual or collected)		present	present		present									present						

Duplicated plant names

- Common error: adding a plant name that already exists in the spreadsheet
- Seriousness level: 😞😞😞
if differing rake fullness data recorded in both columns, the whole survey may not be added to the database.

TRF and RF

- Record rake fullness for the following species but do NOT include or count towards the total rake fullness
 - Aquatic moss, Freshwater sponge
 - Filamentous algae
 - *Riccia fluitans*, Slender riccia
 - *Ricciocarpus natans*, Purple-fringed riccia

Missing, duplicated, or extra points

- Common errors: recording data twice for the same point, forgetting to sample a point, adding points without explanation
 - If you're conducting a partial-lake survey, please make sure to note that in the comments
- Seriousness level:    incomplete or heavily qualified survey data may be added to the database. But if errors are too serious/numerous, survey will not be added at all.

Inclusion of terrestrial species

- Common error: recording a 1-3 rake fullness for a terrestrial species instead of Visual or V
- Seriousness level: Although survey data may be entered into database, these errors can generate misleading FQI and littoral FOO measures

Incomplete Entry data

- Common errors: forgetting to include survey date or incorrectly recording date
- Seriousness level:  Missing dates don't prevent survey data from going into database, but could prevent the use of data in future analyses (seasonal plant community differences, etc.).

Long Lake

Sheboygan, Fond du Lac County, 423 Acres

[Overview](#) [Map](#) [Facts & Figures](#) [More](#)

Long Lake is a 423 acre lake located in Sheboygan, Fond du Lac Counties. It has a maximum depth of 47 feet. Visitors have access to the lake from a public boat landing, public beaches. Fish include Panfish, Largemouth Bass, Northern Pike and Walleye. The lake's water is moderately clear.

Features   

- [Boat Landing \(1\)](#)
- [Public land or park within 1000 feet of the lake \(1\)](#)
- [Beaches \(2\)](#)

General Condition

Long Lake South Beach, Kettle Moraine SF - Northern Unit was assessed for the 2018 listing cycle; E. coli data sample data were clearly below the 2018 WisCALM listing thresholds for the Recreation use. This beach was meeting this designated use and was not considered impaired.

Date 2017

Author Ashley Beranek

Impaired Waters

Long Lake (38700) was placed on the impaired waters list for Mercury in fish tissue in 1998. This water was assessed during the 2016 listing cycle; total phosphorus and chlorophyll sample data were clearly below 2016 WisCALM listing thresholds for the Recreation use and Fish and Aquatic Life use. This water was also assessed for chlorides and sample data were clearly below 2016

Fish and Aquatic Life - Excellent

Aquatic Plant Management and Data

AQUATIC PLANT MANAGEMENT

Aquatic plants form the foundation of healthy and flourishing lake ecosystems - both within lakes and rivers and on the shores around them. They not only protect water quality, but they also produce life-giving oxygen. In order to protect diverse and stable communities of native aquatic plants and prevent the spread of invasive aquatic plants, many aquatic plant management and nuisance control activities require a permit issued by the DNR.

Mobile/Web-based Treatment Records

- We are scoping a project with IT
- We would like to move TR reporting to a mobile/web-based app.
- In the second session Emily will go through details
- Take some time between now and then to think about what this could look like
 - What would your preferences be for an easy to use application?

APM Rule Updates

Madi

What Prompted the Rule Change?

- Rule Development – “Clean Up and Clarify Expectations”
- Key Changes
 - Fee Structure
 - Integrated Pest Management Model
 - Posting and Public Notice
 - Monitoring for large scale control
 - Pond updates
 - Additional waivers
- Streamlined, Integrated Management
 - IPM, Integrated plans and permits, BMP's

Administrative Rule Revisions

- Up to a 30-month process
- 6 phases – with approximately 11 major steps
- We are in Phase 4 – Public Hearings
- If you want to learn more:
 - Google Search: WI DNR proposed rules
 - All DNR Rules Webpage: <https://dnr.wisconsin.gov/news/input/ProposedPermanent.html>
 - APM Program Webpage: <https://dnr.wisconsin.gov/topic/lakes/plants/rules>

Information about what's in the draft

Go to APM Rules web page

White papers, public meeting recordings, public comments summaries, Economic Impact Analysis, Draft Rule, Summary of Key Rule Changes.

<https://dnr.wisconsin.gov/topic/lakes/plants/rules>

Keep in Mind...

All proposals in this rule draft are just that, proposals

Nothing is set in stone

We want your input on what needs more thought in this rule and why

What's Next?

- Draft rule is open for public comment
 - Now to March 1st.
- Public Hearing:
 - February 22nd, at 1 PM.
 - You may provide written comments or register to speak at the hearing.
- Then, DNR will consider all of your comments during final edits

How Can You Get Involved?

- Go to Program's Webpage for Helpful Background Information:
 - Google Search: WDNR apm rules
 - Program Webpage: <https://dnr.wisconsin.gov/topic/lakes/plants/rules>
 - DNR Rules Webpage:
<https://dnr.wisconsin.gov/news/input/ProposedPermanent.html>
- Attend public hearing on February 22nd.
- Provide written comments to Madi Johansen between now and March 1st.

Helpful and Effective Input

- We want clear, direct comments from you.
- Helpful Comments:
 - Are relevant
 - Are specific to a section of the draft rule (reference where possible)
 - Provide real-world examples of how a policy may or may not affect you.
 - If comment is in opposition, the comment provides an alternative suggestion for consideration.
 - If comment is in support, the comment states why and how the policy is good.
- Saying, “I don’t like X...” will only get you so far ;)

How will we use your comments?

- We will consider all of the comments received between now and March 1st.
- We will weigh the benefits of different proposals based on public input and DNR constraints
- We will make final edits to the draft board order, showing what changes were made based on public input.
- We will send that version to the Natural Resources Board, Governor and Legislature for approval.

Questions?

Break for Lunch

Gather back at 12:30

Session 3

ePermitting Updates 2022

Emily Hjalmarson

Reminders for 2022

- Permit applications must be submitted using the ePermitting system.
 - Help document at the bottom of our APM webpage.
 - <https://dnr.wi.gov/lakes/plants/forms/>

Application Forms and Resources

- [Apply for an Aquatic Plant Management Permit Online](#)
- [Worksheet for Large-Scale Chemical Aquatic Plant Treatment 3200-004a \[PDF\]](#)
- [Aquatic Plant Management Herbicide Treatment Record 3200-111 \[PDF\]](#)
- [APM Permit Site Map Examples \[PDF\]](#)
- [APM ePermitting Guidebook \[PDF\]](#)

Reminders for 2022

- ePermitting system is the preferred way to submit treatment records.
 - Can validate permit number

Lookup Treatment Record Information	
Permit ID #:	NE-2021-12-3456
Permit Name:	Example Permit
Waterbody Name:	Example Lake
Permit Holder Name:	Jane Smith
Chemical Treatment Completed:	<input type="checkbox"/> Yes <input type="checkbox"/> No
Where to find your permit number	

Reminders for 2022

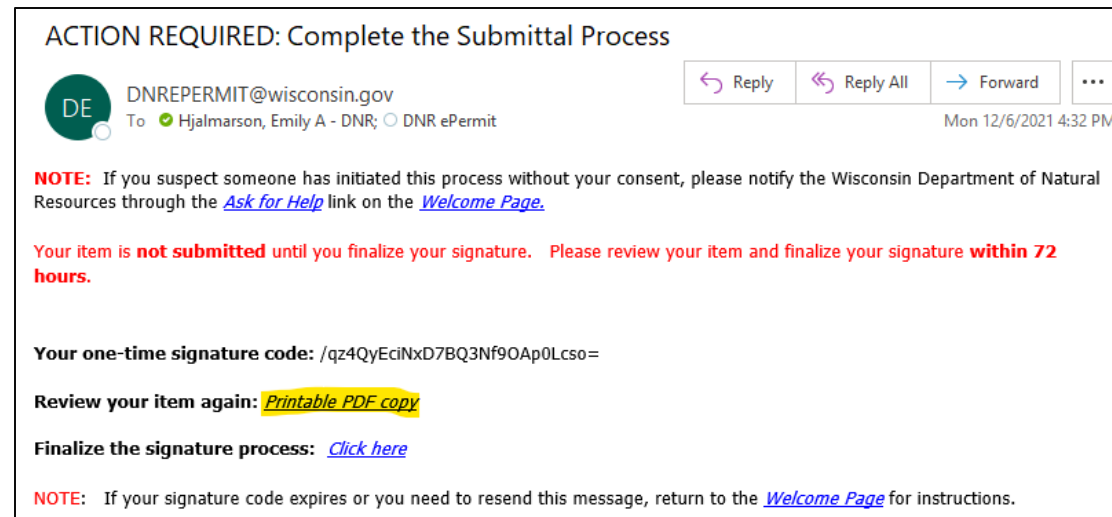

- ePermitting system is the preferred way to submit treatment records.
- Autofills some permit information

State of Wisconsin Department of Natural Resources dnr.wi.gov		Aquatic Plant Management Herbicide Treatment Record Form 3200-111 (R4/20)		Page 1 of 2
Notice: Completion of this form is a condition of the permit and provides records required by WDNR (NR 107) and DATCP (ATCP 29.21 and 29.22). The Department may not issue you future permits unless you complete and submit this form. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records Law [ss. 19.31-19.39, Wis. Stats.].				
Submit this form: (1) immediately if any unusual circumstances occurred during treatment (2) as soon after treatment as possible, no later than 30 days (3) by October 1 if no treatment occurred				
Completion of this form along with the permit satisfies the requirements of WDNR (NR 107) and DATCP (ATCP 29.21 and 29.22).				
Permit Number SC-2021-25-9434	Water body Name (including ponds, e.g., Smith Pond) Example Pond			
County Dane	Permit Holder Name (Customer Name) Jane Smith			
Permit Holder Address 123 Test Road	City Madison	State WI	Zip Code 53712	

Applicator Information		
Individual or Business Name Example Business	Telephone xxx-xxx-xxxx 123-456-7891 x	
Street Address 123 Test Ave		
City Madison	State WI	ZIP Code 53413

Reminders for 2022

- ePermitting system is the preferred way to submit treatment records.
 - Can download PDF to share with clients right away

Reminders for 2022

- In applicant section, ensure correct contact information for permittee is provided (not your own)
 - Application is considered incomplete without correct phone number or email
 - Information is hidden from public view

<input type="checkbox"/> Clearigate	<input type="checkbox"/> Komeen Crystal	<input type="checkbox"/> Roundup Custom	<input type="checkbox"/> Weedestroy AM-40

Other Proposed Chemical(s):

Autopopulation from Previous Permits

- Works for NR109 permits now
- Previous year's permit # and Business Certification #
- Should turn green and give message when successful
- Feature is optional

Aquatic Plant Management

NOTE: Missing or incomplete fields are highlighted at the bottom of each page. You may save, close and return to your draft permit as often as necessary to complete your application. If there are no updates in 90 days, your draft is deleted

[Home](#) [Contacts](#) [Site](#) [Application](#) [Attachments](#) [Payment](#) [Signature](#)

PLEASE NOTE: You must complete the section below before continuing.

Site or Project Name:

Example Lake

The permit application will be saved automatically with this name

Activity

Chemical Control Application

Eligibility:

(All questions must be no for it to be considered a private pond.)

Is there more than one property owner? ☒ Yes ☐ No

Will there be uncontrolled surface water discharge? ☒ Yes ☐ No

Does the water body have public access? ☒ Yes ☐ No

Before completing your APM permit application, the DNR encourages applicants to contact their local APM Contact:
http://dnr.wi.gov/lakes/contacts/Contacts.aspx?role=AP_MNGT

Enter previous years permit information below to import Contact Information (Optional)

Permit ID #:

NE-2020-12-3456

Business Certification Number:

93-123456-789123

Permit Import Successful – Please Proceed to Contacts Tab

Import Permit

Autopopulation from Previous Permits

- Do this as a first step
 - Using this feature after draft is saved has issues
- Both fields are case-sensitive
 - Good: NE-2020-12-3456
 - Bad: ne-2020-12-3456 (lower case letters)
- Data is only as good as what was entered
 - Check previous permit document to verify
 - Email if you find an issue

Autopopulation from Previous Permits – Expanded

- **Private Ponds (3200-155)**
 - Nuisance Caused By checkboxes
 - Target Plant checkboxes
 - Proposed Chemicals checkboxes
- **Please check for errors or out of date information**

Other Minor Updates

- Site/Treatment Area Name fields (optional)

Proposed Treatment Area									
Area(s) Proposed for Control:									
Site Name (Optional)	Treatment Length		Treatment Width		Estimated Acreage		Average Depth		Calculated Volume
Site A	100	ft. x	500		+ 43,560 ft ² =	1.15	ac	5	ft = 5.74 ac-ft
				ft.					
Site B	300	ft. x	400		+ 43,560 ft ² =	2.75	ac	4	ft = 11.02 ac-ft
				ft.					
Estimated Acreage Grand Total						3.90	ac	Calculated Volume Grand Total	16.76 ac-ft

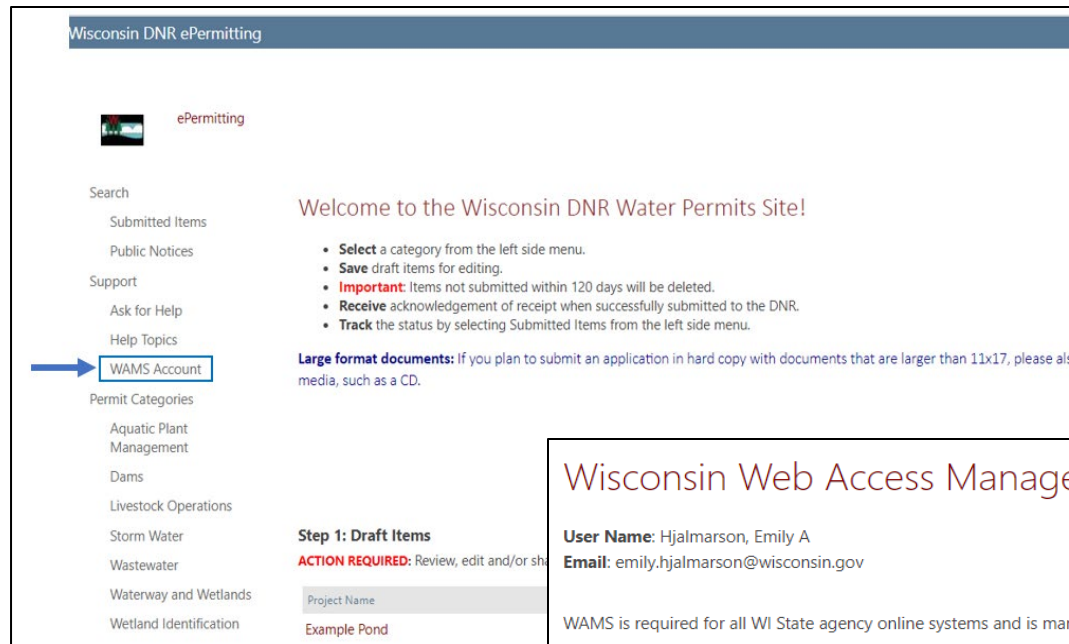

- Can insert more boxes to enter Target Plants on treatment records

Future Updates

- Rule-related updates such as
 - Changes to existing forms
 - Creating new forms such as Wetland Permit Form, Wetland Reporting, Mechanical Reporting, etc.

Troubleshooting - WAMS Account Information

- Can verify your email address is correct. Also there is a link to update it

Wisconsin Web Access Management System (WAMS)

User Name: Hjalmarson, Emily A
Email: emily.hjalmarson@wisconsin.gov

WAMS is required for all WI State agency online systems and is managed by the Department of Administration (DOA), **not** the Department of Natural Resources.

If you need to update the email associated with your WAMS ID
You can update your email and other profile settings at : <https://on.wisconsin.gov/WAMS/home>

Questions? Use our Ask for Help

Issue Trackers

- For most problems, best to email DNRAPMProgram@Wisconsin.gov
 - Can potentially solve the problem without IT.
 - They know the “lingo” to best communicate the problem and can send issue trackers on your behalf.

Issue Trackers

- Detailed email including any #s
- Include screenshots
- Confirm you are using Chrome on computer
- Signature issues – confirm you checked Junk/Spam

Questions?

DNRAPMProgram@Wisconsin.gov

Treatment Record App

Planned Features

- Mobile friendly site to enter submit data – could be used in office or in the field
- Import some permit data
- Potentially use location services to show map of current location & record lat/long
- Produce an output (PDF) to be shared with customers
- Security to satisfy legal requirements

Treatment Record App Feedback

- Any other features you would like this to have?
- Any other issues you foresee occurring?
