Summary: “Lake is surrounded by lands in a private development owned by the land developer since 2007. Gold Bar Realty is the developer’s selling entity and every owner on the lake has (and likely will) purchase from them. Assigning the name Gold Bar Lake will give the lake an official name that is unique (no other lake in the state has that name) and meaningful to the landowners that use the lake.”

Adam Gohlke Owns Gold Bar Realty and is a broker for the company.
