Thanks Molly,

We are currently in the process of mobilizing equipment and supplies to site, with the Drill scheduled to be mobilized on either Wednesday afternoon or Thursday morning. At the earliest, we would begin drilling Thursday afternoon.

We will begin drilling on Site SL-6. The hole will be drilled at a bearing of ~345 degrees at a ~64 degree dip. The estimated total depth of the hole is ~1,500'. Actual specs may vary slightly depending on the positioning of the drill rig.

Feel free to contact me with any questions.

Regards,  
Eric

Hi Eric –

The bond documentation has been received. Please provide 48 hour notice before drilling commences with all the information requested in Condition 2 of the approval.

Best,

Molly Gardner, CPG

Hi Molly,

See attached bond rider increasing the total bond amount from \$50k to \$185k.

Let me know if you have any other questions or need any additional information.

Regards,

Eric Quigley
