Instructions for creating a Zooniverse account:

1. Log onto www.SnapshotWisconsin.org.

2. In the upper righthand corner, click "REGISTER."

3. Fill out the information requested.

4. Check the first box to agree to the privacy policy (required).

5. Click "Register" - ta da, you now have a Zooniverse account!

Instructions for Snapshot Wisconsin Snap-a-thon:

1. Identify as many species on Zooniverse as possible within the allotted time frame. Navigate to the "CLASSIFY" tab to begin identifying species.

2. For 1 and 3 point species, place a check mark in the box of animals that you have clearly identified. You will only receive points once per species (i.e., seeing 10 pictures of deer will only get you 1 point).

3. For 5 point species and bonus items, raise your hand to have a team member verify and place a colored check mark in the box (*points will not count unless a team member signs off*).

4. If you are unsure of a critter, there are example photos when you click on a species name and a field guide on the right hand side of your screen. Otherwise — feel free to flag down a team member!

5. For blurry or difficult to identify photos, please make your best guess (*multiple volunteers will look at each Zooniverse photo—don't worry too much about these*).
