

The statement of scope for this rule, SS 040-25, was approved by the Governor on July 10, 2025, published in Register No. 835A2 on July 14, 2025, and approved by the Natural Resources Board on August 13, 2025. This rule was approved by the Governor on insert date.

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD  
REPEALING, AMENDING, AND CREATING RULES

The Wisconsin Natural Resources Board proposes an order to **repeal** NR 20.19 (2) (b), 20.20 (9) (d) 1. as affected by CR 25-032, (17) (g) 2. as affected by CR 25-032, (18) (g) 1. and 2. as affected by CR 25-032, 21.02 (1), (11), and (20), 21.11 (3) (d), 22.02 (1), 22.12 (17), 25.06 (2) (e) 2. d., 25.09 (1) (am) 7., and (b) 9., 25.10 (1) (b) 1., 25.135 (2); to **amend** NR 8.045 (1) (a) 3., 19.001 (3m), 19.05 (4), 20.03 (18), 20.12 (2) (a) and (d), 20.16 (1) (a) (intro.), 20.20 (4) (f) 1., (20) (b) 3., (22) (e) 4. as affected by CR 25-032, (47) (f) 1m. as affected by CR 25-032, (49) (f) 2., (51) (h) 2., (56) (a) 1. and 2., and (d) 1. and 2., (64) (i) 1., (70) (a) 4., (73) (a) 2. and 3., 20.33 (1) (a) (intro.), 4. and 5., (b) (intro.), 3. and 4., and (c), 21.02 (4), (9), (10) and (16), 21.11 (1) (cf) and (h), (2) (c) 1., (4) (a), (c) 1., and (f), 21.13 (4) (d), 22.02 (5) and (15), 22.11 (8), (9), (19), and (22), 22.13 (4) (d), 25.027 (36), (41) and (47), 25.03 (1) (c) 1. to 3., and (2) (c) 1. to 3., 25.05 (1) (g), (gm), and (gn), and (2), 25.06 (2) (e) 2. b., 25.09 (1) (ah) 1. and 2., (as) 2. and 3., (b) 2. and 11., (bm) 1., (e), 25.10 (1) (b) (intro.) and 2., 3., 4. 5., 6., 9., and 10., 25.10 (1) (c), 25.135 (1) (title), (a) (intro.), (a) 2., and (b), 25.18 (1) (b) 1. and 2., (c) 1. to 4., and (d) 1., 2., and 4., 26.01 (57) (f), 26.02 (1) and (2), 104.20 (5); and to **create** NR 19.001 (3m) (note), 20.03 (31m), 21.02 (2m), (16m), and (32m), 22.02 (3m), (8m), (15m), and (29m), 25.02 (2), (29), (32), (33), and (56m), 25.05 (1) (gl), 25.10 (1) (b) 3m., and (e), and 25.135 (1) (c) relating to minor changes, corrections, and clarifications to fishing regulations on inland, outlying and boundary waters (the 2025 Fisheries Management housekeeping rule).

FH-19-24

Analysis Prepared by the Department of Natural Resources

**1. Statute Interpreted:** Sections 29.014, 29.041, 29.053 (2), 29.424, and 29.519 (1m) (b), Stats., have been interpreted as authorizing the department to conserve and regulate the fish supply in waters of the state while continuing to provide opportunities for good fishing.

**2. Statutory Authority:** Sections 29.014, 29.041, 29.053 (2), 29.424, and 29.519 (1m) (b), Stats., authorize this rule.

**3. Explanation of Agency Authority:** Section 29.014, Stats., “rule-making for this chapter,” grants the department the authority to establish and maintain open and closed seasons, bag limits, size limits and other conditions that will conserve fish populations and provide good fishing opportunities for the citizens of the state.

Section 29.041, Stats., provides that the department may regulate fishing on and in all interstate boundary waters and outlying waters.

Section 29.053 (2), Stats., provides that the department may establish conditions governing the taking of fish for the state as a whole, for counties or parts of counties, or for waterbodies or parts of waterbodies.

Section 29.424, Stats., authorizes the department to designate species of fish as detrimental in waters of the state where it is found to be detrimental, and may remove these fish or cause them to be removed.

Additional authorities granted to the department through s. 29.519 (1m) (b), Stats., include the authority to designate the size, kind and amount of gear allowed for commercially harvesting fish, the authority to restrict the number of commercial fishing licenses issued, and the authority to designate areas in outlying waters as restricted to commercial fishing operations. This section also specifies that the limitations on commercial harvests, licenses, restricted areas, and gear must be based on the available harvestable population of fish and must uphold the wise use and conservation of the fish to prevent overexploitation.

**4. Related Statutes or Rules:** No related statutes or rules apply.

**5. Plain Language Analysis:**

This rule is minor in nature and mainly clarifies regulations, codifies existing department policies to ensure consistency in implementation, corrects outdated language and drafting errors, removes obsolete provisions, updates cross-references and points of reference, and addresses inconsistencies in administrative code language. Changes to chs. NR 22 and 25 related to commercial fishing regulations will aid the department and stakeholders in interpreting and implementing these chapters. This rule will not impose new regulations on commercial fishers as the changes are minor nature. Some of these changes also make administrative code consistent with regulation changes that were implemented using the process outlined in s. NR 20.35, Wis. Admin. Code, which allows the department to remove a special regulation or implement a predefined alternate regulation through a public notice period and public meeting, if requested. This rule contains the NR 20.35 changes that have been implemented since the previous housekeeping rule.

SECTION 1 clarifies that a valid state-issued identification card is an acceptable form of identification to purchase authorizations as allowed by state statute.

SECTIONS 2, 4, 18, 26, 69, and 85 remove culturally offensive references and replace them with updated location names and terminology.

SECTION 5 defines when a fish comes into an angler's possession. Codifying this definition is necessary to clearly identify the parameters for enforcing possession limit regulations.

SECTIONS 6, 22, 49, 50, 63, 69-78, 82-84, 86 and 87 update the Lake Superior, Lake Michigan tributaries, major Green Bay tributaries and other boundary waters and zones with GPS coordinates that identify exactly where they begin and end with respect to commercial fishing and sport fishing regulations. This is necessary to help commercial fishers, sport fishers, and law enforcement accurately and uniformly identify where specific regulations are in effect.

SECTION 7 clarifies that a person is allowed to use more than 5 set or bank poles or use more than 25 hooks when using setlines authorized in chs. NR 21 or NR 22. Chapter NR 21 allows up to 400 hooks if distributed on 8 setlines with max of 50 hooks per line or 4 setlines with max of 100 hooks per line and Chapter NR 22 allows up to 600 hooks if distributed on up to 12 setlines with a max of 50 hooks per line or 6 setlines with a max of 100 hooks per line, so this section clears up that contradiction.

SECTIONS 8, 14 and 16 update code to reflect errors or omissions that were inadvertently made when a previous rule package was approved.

SECTION 9 updates code to reflect that the unlimited panfish possession limit for this waterbody has reverted to the statewide regulation.

SECTIONS 10, 11, 12, 13, 15, 17, 18, 20, and 21 update code to reflect bag limit changes that were made through the NR 20.35 process.

SECTION 19 clarifies that the boundary is the highway itself instead of a bridge that is no longer present.

SECTION 23 establishes that a catch and release season is an option to put in place when a waterbody is experiencing a temporary water level reduction.

SECTIONS 24, 27, 29, 42, 46 are definitions that are repealed because the terms are not relevant to the respective chapters.

SECTIONS 25, 26, 28, 30, 31, 39, 40, 41, 43, 44, and 48 update or create definitions of various terms related to commercial fishing.

SECTIONS 32, 45, 59, 60, 61, 65, 66, and 67 clarify language related to requirements for the use of various commercial fishing gear. These sections do not change current regulations, but more clearly lay out the requirements for the gear, as well as how and where it should be used.

SECTION 33 clarifies that gill nets are prohibited on the St. Croix River.

SECTIONS 35 and 36 clarify the dates when certain commercial fishing is allowed on specific waters.

SECTION 37 clarifies when and how buoys should be used with setlines in open water and in ice.

SECTIONS 38 and 47 clarify that Blanding's turtles or threatened or endangered turtles may not be kept as incidental take by commercial fishers.

SECTIONS 51 and 52 clarify that commercial fishers must be licensed by the DNR as commercial fishers.

SECTIONS 53 and 55 update language to be consistent with the verbiage used elsewhere in the chapter.

SECTION 54 is created to clarify that bullheads, catfish, and white bass have no open seasons in Green Bay and Lake Michigan and are open year-round in Lake Superior. It was previously listed under a section that had exemptions, but the exemptions did not apply to those species.

SECTION 56 clarifies the appropriate way to measure a fish.

SECTIONS 57 and 58 remove language applicable to past years.

SECTIONS 79 and 80 make the regulations for fleet reporting consistent between Lake Michigan and Lake Superior.

SECTION 88 updates a waterbody name with the official USGS name as required by state statute.

**6. Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations:** No federal regulations apply. States possess inherent authority to manage the fishery and wildlife resources within their boundaries, except insofar as preempted by federal treaties and laws, including regulations established in the Federal Register.

**7. If Held, Summary of Comments Received During Preliminary Comment Period and at Public Hearing on the Statement of Scope:** A preliminary hearing was not required for this rule.

**8. Comparison with Similar Rules in Adjacent States:** Fisheries management rules are generally similar in the states surrounding Wisconsin. Each bordering state regulates fishing by the use of seasons, bag limits and size limits. Specific seasons and bag and size limits may differ for species among the surrounding states, but the general principles are the same. Michigan, Minnesota, Iowa, and Illinois all have statewide seasons and bag and size limits for fish species, along with special or experimental regulations on individual waters.

**9. Summary of Factual Data and Analytical Methodologies Used and How Any Related Findings Support the Regulatory Approach Chosen:** Fishing regulations, such as length and bag limits or season dates, are used as a tool to ensure that good fishing exists into the future. The department has used different types of fishing regulations in order to: control angler impacts on fish populations; maintain numbers and sizes of fish in a lake or stream; provide different types of fishing experiences, such as fishing for dinner or for a trophy fish; and make access to fishing as fair as possible.

This rule includes minor changes to administrative code that support existing policies and fisheries management goals. The items in this rule have been compiled by fisheries staff across the state, as well as department law enforcement professionals.

**10. Analysis and Supporting Documents Used to Determine the Effect on Small Business or in Preparation of an Economic Impact Report:** The proposed rule is not expected to have any economic impact on sport anglers or commercial fishers. As with any change in regulations, there will be a requirement for anglers to learn the new rules. However, a majority of this rule change clarifies code to reflect existing policies for which anglers must already comply. The department works to notify the public of new regulations via press releases, the internet, and fishing regulations pamphlets.

The department will conduct an economic impact analysis and comment period to determine if any individuals, businesses, local governments, or other entities will be affected economically.

**11. Effect on Small Business (initial regulatory flexibility analysis):** The department expects no economic impact directly related to these rule changes. The proposed rule does not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule.

RULE TEXT

**SECTION 1. NR 8.045 (1) (a) 3. is amended to read:**

NR 8.045 (1) (a) 3. An authenticated, current, non-expired Wisconsin operator's license issued by the department of transportation, of the type required under s. 343.18 (1), Stats., or an authenticated, current, non-expired Wisconsin state identification card issued by the department of transportation under s. 343.50, Stats.

**SECTION 2. NR 19.001 (3m) is amended to read:**

NR 19.001 (3m) "~~Asian~~Invasive carp" means bighead carp (*Hypophthalmichthys nobilis*), black carp (*Mylopharyngodon piceus*), grass carp (*Ctenopharyngodon idella*), silver carp (*Hypophthalmichthys molitrix*), and all other non-native carp species except common carp (*Cyprinus carpio*), goldfish (*Carassius auratus*), and koi carp (*Cyprinus carpio* or *Cyprinus rubrofuscus*).

**SECTION 3. NR 19.001 (3m) (note) is created to read:**

NR 19.001 (3m) Note: "Invasive carp" has the same meaning as "Asian carp" in s. 29.001 (74), Stats.

**SECTION 4. NR 19.05 (4) is amended to read:**

NR 19.05 (4) Except as authorized under permits pursuant to ch. NR 40 and 50 CFR 16.22, no person may transport ~~Asian~~invasive carp over land within or through Wisconsin unless the ~~Asian~~invasive carp have been eviscerated or the gills plate completely severed so that the fish cannot be revived under any circumstances.

**SECTION 5. NR 20.03 (31m) is created to read:**

NR 20.03 (31m) "Possession of a fish" means the angler has control of the fish longer than necessary to retrieve the fish, remove a hook, measure or weigh the fish, take a photograph to document the catch, and to revive it before release. If the angler who caught the fish resumes

fishing while the fish is being revived, then the fish has been reduced to possession and is counted towards the angler's daily bag limit.

**SECTION 6. NR 20.03 (18) is amended to read:**

NR 20.03 (18) "Lake Michigan tributaries" means the Pike river and its tributaries, Kenosha and Racine counties; Kewaunee river and its tributaries excluding Little Scarboro, Scarboro, Roger and Casco creeks, Kewaunee county; Manitowoc river and its tributaries upstream to the first dam or lake, Manitowoc county; Milwaukee river upstream to the Grafton dam in the village of Grafton and tributaries to the Milwaukee river upstream to the first dam or lake; Menomonee river upstream to the Lepper dam in the village of Menomonee Falls and tributaries to the Menomonee river upstream to the first dam or lake; Sauk creek and its tributaries upstream to the first dam or lake, Ozaukee county; Sheboygan river downstream to the ~~east guard station~~ center of the 8<sup>th</sup> street bridge located at coordinates 43°44'40.4"N 87°42'46.8"W and its tributaries excluding Unnamed tributary (locally known as Willow creek), Sheboygan county; and all other tributaries to Lake Michigan upstream to the first dam or lake.

**SECTION 7. NR 20.12 (2) (a) and (d) are amended to read:**

NR 20.12 (2) (a) Use, set, lift, attend or possess more than 5 set or bank poles, except when the use of a setline is authorized under ch. NR 21 or 22.

(d) Use, set, lift or attend a setline with more than 25 hooks, except when the use of a setline is authorized under ch. NR 21 or 22.

**SECTION 8. NR 20.16 (1) (a) (intro.) is amended to read:**

NR 20.16 (1) (a) *Open season and waters.* Except as specified in sub. (2), there is an open season for trout from 5:00 a.m. on the first Saturday in January through the Friday preceding the first Saturday in ~~May~~ April on the following waters:

**SECTION 23. NR 20.33 (1) (a) (intro.), 4. and 5., (b) (intro.), 3. and 4., and (c) are amended to read:**

NR 20.33 (1) (a) *Water level reduction.* Pursuant to par. (e), the department may establish a catch and release only season, close the harvest season for specific fish species, or close the season for fishing in all or part of any inland water which has experienced sudden water level reduction or where a sudden reduction is imminent as a result of dam failure, draw down or other loss of water supply. The ~~closed~~-season change shall remain in full force and effect until the department determines that the water has been returned to its original level and the season is open pursuant to par. (e) 2. The department may ~~close~~ implement the season change when it finds, after scientific investigation and study, that all of the following have occurred:

4. Continued sport fishing harvest may result in a depletion of the game fish supply.

5. ~~Closure of the~~The season change is necessary to conserve the game fish supply until water levels are restored and to ~~insure~~ ensure the citizens of this state continued opportunities for good fishing.

(b) *Fish concentrated under ice.* Pursuant to par. (e), the department may establish a catch and release only season, close the harvest season for specific fish species, or close the season for fishing through the ice in all or part of any inland water. The ~~closed~~-season change shall remain in full force and effect until the water is no longer covered with ice and the season is

opened pursuant to par. (e) 2. The department may ~~close~~ implement the season change when it finds, after scientific investigation and study, that all of the following apply:

3. Continued sport fishing harvest would deplete the supply of game fish.

4. ~~Closure of the~~ The season change is necessary to conserve the game fish supply and ~~insure~~ ensure the citizens of this state continued opportunities for good fishing.

(c) *Fishery rehabilitation.* Pursuant to par. (e), the department may establish a catch and release only season, close the harvest season for specific fish species, or close the season for fishing in all or part of any inland water in which fish have been removed or destroyed as a result of a rehabilitation program, to reestablish a good supply of game fish and ~~insure~~ ensure the citizens of this state future opportunities for good fishing. The ~~closed~~ season change shall remain in ~~full force and~~ effect until opened pursuant to par. (e) 2., scientific investigation indicates the game fish population has achieved a harvestable surplus of fish of desirable size, and reopening the season does not conflict with the closed seasons for each species specified in sub. (1).

**SECTION 24. NR 21.02 (1) is repealed.**

**SECTION 25. NR 21.02 (2m) is created to read:**

NR 21.02 (2m) “Buoy” means a buoyant marker that includes a staff and flag, all of which protrude above the surface of the water or ice, and in combination are used to mark the location of a commercial fishing net or setline.

**SECTION 26. NR 21.02 (4), (9), and (10) are amended to read:**

NR 21.02 (4) “Commercial fish” means rough and detrimental fish as defined by this chapter, shovelnose (hackleback) sturgeon 25 inches long or longer only when taken on setlines, catfish 15 inches long or longer ~~or dressed catfish at least 12 inches long~~ and bullheads of any length when taken with commercial fishing gear and all taken while fishing under a commercial fishing license on the ~~Mississippi River~~ Wisconsin-Minnesota boundary waters.

(9) “Dead set ~~gill net~~” means a ~~gill~~ net that is set and allowed to catch fish without being moved and without constant net attendance by the operator.

(10) “Detrimental fish” means all species of ~~Asian~~invasive carp, including bighead, silver, grass, and black carp.

**SECTION 27. NR 21.02 (11) is repealed.**

**SECTION 28. NR 21.02 (16) is amended to read:**

NR 21.02 (16) “Frame net” or “fyke net” ~~has the meaning given in s. NR 22.02 (15)~~means an unbaited modified hoop net with one lead of netting attached to the first hoop. Two fence-like nets called wings are staked out from the net providing a barrier that funnels fish into the hoop portion of the net. Internal funnels within the fyke net are designed to lead fish to the fish holding area of the net. Any mesh size is allowed with a front not to exceed four feet by eight feet if rectangular or eight feet in diameter if round.

**SECTION 29. NR 21.02 (16m) is created to read:**

NR 21.02 (16m) “Gang” means the entire length of a single gill net, multiple gill nets fastened together, or a setline.

**SECTION 30. NR 21.02 (20) is repealed.**

**SECTION 31. NR 21.02 (32m) is created to read:**

NR 21.02 (32m) “Stake fyke net” as referenced in s. 29.516 (2), Stats., means a fyke net, also called a frame net, that uses stakes pushed into the substrate to support the leader or wings or tunnel or pot of the net.

**SECTION 32. NR 21.11 (1) (cf) and (h) are amended to read:**

NR 21.11 (1) (cf) No person may mark or tag a net or setline with his or her license number or metal tag if the net or setline is already marked or tagged by another licensed commercial fisher, ~~except that up to two commercial fishers may each place one of their net tags on the same net and may lift or operate this net when it is agreed to by both commercial fishers.~~

~~Only one net flag with one number may be displayed on a net at any time and only the commercial fisher whose flag is attached to the net may set, place, tend, operate or lift the net.~~

(h) ~~No person may possess or control~~ Nets or other devices designed or used to capture fish, other than commercial fishing gear ~~not~~ authorized for use in the Wisconsin-Minnesota boundary waters by this chapter, may not be possessed or under one's control while on the ice or the open waters of the state ~~or while engaged in a fishing operation involving those waters~~ Wisconsin-Minnesota boundary waters.

**SECTION 33. NR 21.11 (2) (c) 1. is amended to read:**

NR 21.11 (2) (c) 1. ~~Open water gill net sets~~ Gill sets are prohibited in ~~Lake the~~ St. Croix ~~from the highway 64 bridge at Houlton, downstream to its confluence with the Mississippi river~~ at all times.

**SECTION 34. NR 21.11 (3) (d) is repealed.**

**SECTION 35. NR 21.11 (4) (a) is amended to read:**

NR 21.11 (4) (a) Setlines may be used in the waters of the Mississippi river from the Saturday nearest April 1 to October 31, except for the closed areas and alternate dates listed in pars. (b) and (c).

**SECTION 36. NR 21.11 (4) (c) 1. is amended to read:**

NR 21.11 (4) (c) 1. Pool 4, between river mile 780 and 797, closed from March 1 through May 31 and open from June 1 through the last day of February.

**SECTION 37. NR 21.11 (4) (f) is amended to read:**

NR 21.11 (4) (f) There shall be a buoy at each end of every setline set in open water. The buoys shall have a staff extending at least 3 feet above the surface of the water. Upon

the upper end of each staff, there shall be a flag at least 10 inches square. Upon the bowl of each buoy, there shall be maintained in plain figures the license number of the licensee. On setlines set through the ice, there shall be maintained on each end of the gang a board or similar material which shall bear the license number authorizing the use of the setline.

**SECTION 38. NR 21.13 (4) (d) is amended to read:**

<b>Turtle species</b>	<b>Open seasons (both dates inclusive)</b>	<b>Daily bag and possession limit</b>	<b>Size limit</b>
(d) Turtles incidentally taken in licensed commercial fishing operations, <u>except Blanding's turtles and any turtles listed as threatened or endangered in ch. NR 27</u>	Continuous	None	None

**SECTION 39. NR 22.02 (3m) is created to read:**

NR 22.02 (3m) "Buoy" means a buoyant marker that includes a staff and flag, all of which protrude above the surface of the water or ice, and in combination are used to mark the location of a commercial fishing net or setline.

**SECTION 40. NR 22.02 (5) is amended to read:**

NR 22.02 (5) "Commercial fish" means species of rough and detrimental fish as defined in this chapter, shovelnose (hackleback) sturgeon 27 inches and over but less than 34 inches in fork length, catfish 15 inches or over in length ~~or 12 inches or over dressed~~ and bullheads of any length when taken with commercial fishing gear under a commercial fishing license.

**SECTION 41. NR 22.02 (8m) is created to read:**

NR 22.02 (8m) “Dead set” means a net that is set and allowed to catch fish without being moved and without constant net attendance by the operator.

**SECTION 42. NR 22.02 (10) is repealed.**

**SECTION 43. NR 22.02 (15) is amended to read:**

NR 22.02 (15) “Frame net” or “fyke net” means ~~an~~ unbaited modified hoop net with ~~no more than two leads~~ one lead of netting attached to the first hoop. ~~The~~ Two fence-like nets called wings are staked out from the net providing a barrier that funnels fish into the hoop portion of the net. Internal funnels within the ~~frame~~ fyke net are designed to lead fish to the fish holding area of the net. Any mesh size is allowed with a front not to exceed four feet by eight feet if rectangular or eight feet in diameter if round.

**SECTION 44. NR 22.02 (15m) and (29m) are created to read:**

NR 22.02 (15m) “Gang” refers to the entire length of a single gill net, multiple gill nets fastened together, or a setline.

(29m) “Stake fyke net” as referenced in s. 29.516 (2), Stats., means a fyke net, also called a frame net, that uses stakes pushed into the substrate to support the leader or wings or tunnel or pot of the net.

**SECTION 45. NR 22.11 (8), (9), (19), and (22) are amended to read:**

NR 22.11 (8) A licensed commercial fisher or any member of the crew or any person in or on a boat may not have in possession any game fish while operating licensed commercial gear ~~or bank poles~~, or when traveling to or from the operation of such gear while on the waters or ice.

(9) ~~Commercial~~ Nets or other devices designed or used to capture fish, other than commercial fishing gear ~~not~~ authorized for use in the Wisconsin-Iowa boundary waters by this chapter, may not be in possession or under control while on those waters or ice of those waters.

(19) No person may mark or tag a net or setline with his or her license number or metal tag if the net or setline is already marked or tagged by another licensed commercial fisher, except that up to two commercial fishers may each place one of their net tags on the same net and may lift or operate this net when it is agreed to by both commercial fishers. ~~Only one net flag with one number may be displayed on a net at any time and only the commercial fisher whose flag is attached to the net may set, place, tend, operate or lift the net.~~

(22) All nets shall be equipped with a metal tag stamped to designate the number of the license issued to the commercial fisher using the net as described in s. 29.523, Stats. Gill nets, setlines, and frame nets, ~~that are left unattended~~ shall have the metal tag attached ~~next~~ to a stake or buoy located on at least one end of the net so it will be visible above the surface of the water. If a stake is used, the stake shall extend at least three feet above the surface of the water and upon the upper end of the stake there shall be a white flag at least ten inches square. The flag shall be numbered with legible figures at least three inches in height corresponding with the number of the license authorizing the use of such net. ~~A buoy may be placed in lieu of a stake and flag, providing the buoy or buoys are numbered with legible figures at least three inches in height corresponding with the number of the license authorizing the use of such nets.~~ On gill nets and setlines set in open water, a buoy is required on each end of the gang. The buoys shall have a staff extending at least 3 feet above the surface of the water, and upon the upper end of the staff, there shall be a flag at least 10 inches square. Each flag shall be numbered with legible figures at least 3 inches in height corresponding with the number of the license authorizing the use of the nets. On gill nets and setlines set through the ice, there shall be maintained on each end of the gang a board or similar material which is readily identifiable and which shall bear the license number authorizing the use of the net.

**SECTION 46. NR 22.12 (17) is repealed.**

**SECTION 47. NR 22.13 (4) (d) is amended to read:**

<b>Turtle species</b>	<b>Open seasons (both dates inclusive)</b>	<b>Daily bag and possession limit</b>	<b>Size limit</b>
(d) Turtles incidentally taken in licensed commercial fishing operations, <u>except Blanding's turtles and any turtles listed as threatened or endangered in ch. NR 27</u>	Continuously	None	None

**SECTION 48. NR 25.02 (2), (29), (32), (33), and (56m) are created to read:**

NR 25.02 (2) “Buoy” means a buoyant marker that includes a staff and flag, all of which protrude above the surface of the water or ice, and in combination are used to mark the location of a commercial fishing net or setline. However, an “ice buoy” may have a staff or flag, but is not required to have a staff or flag.

(29) “Float” means a buoyant marker without a staff or flag and used to mark the location of a commercial fishing net or setline and suspend a commercial fishing net or setline either at the surface of the water and ice, above the bed of the water, or anywhere else within the water column. For example, a float is used under the surface of the water to suspend the wings on a trap/pound net, mark the surface of the water above the wings of a trap or pound net, suspend the top of a leader, suspend the top of a gill, seine, or trammel net, mark the location of a net so it is visible at the surface, etc. An “ice buoy” is not a “float”.

(32) “Frame net” or “fyke net” means an unbaited modified hoop net with one lead of netting attached to the first hoop. Two fence-like nets called wings are staked out from the net providing a barrier that funnels fish into the hoop portion of the net. Internal funnels within the

fyke net are designed to lead fish to the fish holding area of the net. Any mesh size is allowed with a front not to exceed four feet by eight feet if rectangular or eight feet in diameter if round.

(33) “Gang” refers to the entire length of a single gill net, multiple gill nets fastened together, or a setline.

(56m) “Stake fyke net” as referenced in s. 29.516 (2), Stats., means a fyke net, also called a frame net, that uses stakes pushed into the substrate to support the leader or wings and/or tunnel or pot of the net.

**SECTION 49. NR 25.027 (36) and (41) are amended to read:**

NR 25.027 (36) “Northern chub fishing zone” means those waters of Lake Michigan ~~lying north of a line extending from the midchannel marker buoy of Baileys Harbor~~ encompassed by the following points, starting at N45° 01.842’, W87° 05.949’, then on a 135° bearing, and east of a line from the point where the line extending on a 135° bearing from the mid-channel marker buoy of Baileys Harbor intersects the 35 fathom contour, to the easternmost point of Rock Island at N45° 24.454’, W86° 48.313’, then following the northeast shore of Rock Island to the northernmost point of Rock Island at N45° 25.709’, W86° 49.691’, then proceeding north to the Wisconsin-Michigan state line at N45° 26.648’, W86° 49.691’, then following the state line to N45° 26.617’, W86° 48.254’, then following the state line to N45° 14.168’, W86° 14.973’, then following the state line to N45° 04.830’, W86° 29.970’, then following the state line to N44° 58.187’, W86° 36.219’, then due west to N44° 58.187’, W87° 00.098’, then back to the starting point at N45° 01.842’, W87° 05.949’.

(41) “Southern chub fishing zone” means those waters of Lake Michigan ~~lying south of a line extending east encompassed by the following points, starting from the entrance of Kewaunee harbor at N44° 27.459’, W87° 29.522’ to its intersection with the 45 fathom (270 feet) depth contour~~ then due east to N44° 27.459’, W87° 23.424’, then proceeding northerly along the 45 fathom depth contour to its intersection with a line extending east from the entrance of Algoma harbor at N44° 36.397’, W87° 25.792’ N44° 36.397’, W87° 14.793’, then proceeding east along a line from the entrance of Algoma harbor at N44° 36.397’, W87° 25.792’ to its intersection with the Wisconsin-Michigan state line at N44° 36.397’, W86° 48.390°.468’, then following the state
