Hearing Information

Date: October 2, 2025

Time: 1:00 p.m.

Virtual Location Link: Online through [Teams](#).

Rule Information:

This is a statement of scope for a proposed permanent rule; no rule has yet been drafted. This scope statement proposes rule changes related to classifying additional invasive species under the existing prohibited and restricted categories established in ch. NR 40, Wis. Admin. Code. Once classified, these species will be subject to current administrative rules and state statutes governing their introduction, possession, transfer, and transport. The intent is to prevent the establishment of new invasive species in Wisconsin and to limit the spread of those already present. The rule revision may also include reclassification of currently regulated species, such as changing a species from prohibited to restricted, or removing it from regulation altogether.

For the hearing or visually impaired, non-English speakers, or those with other personal circumstances which might make communication at the meeting/hearing difficult, DNR will, to the maximum extent possible and with reasonable advance notice, provide aids including an interpreter, or a non-English, large-print, or recorded version of hearing documents.
