Legal Description: Sec 19 Town. 22N Range 03E, Wood County, State of Wisconsin
see attached map for location and layout of harvest area(s)

Volume Estimates

Species	Pulp/Bolts	Comments	Minimum Bid Value:	No Minimum Advertised
Mixed Hardwoods	1940 Tons	Oak -180 Tons	Biomass Harvesting:	Not Allowed
		Aspen -1330 Tons	Scaling Method:	Lump Sum
		Red Maple -420 Tons	Contract Ending Date:	June 30, 2028
		White Birch -10 Tons		
Totals	1940 Tons		Sale Area:	41 Acres

Cutting Specifications

Unit 1- (41 Acres) Within the sale area cut all aspen, birch, and red maple greater than 1-inch DBH. Cut all oak marked in orange paint. Do NOT cut any unmarked oak or any trees marked with red or green paint. All standing dead trees within a 100-foot distance of any access road, fence, or trail shall be cut. The standard utilization is 6" minimum top diameter for all species.

Operational Considerations-

- Harvest period: Any time of year when ground conditions are very dry or frozen.
- Some of the sale will require Frozen or Very Dry Ground Conditions.
- Harvest operations shall not occur during and 3 days prior to any Sandhill deer hunt.
- Access to sale area will be from gated trails off West Fence Lane, County Road X, or Ball Road.
- Not all DNR roads and trails are maintained during the winter months and will be the responsibility of the contractor to maintain.
- The contractor must contact the appropriate Department of Natural Resource (DNR) Forester a minimum of one week prior to starting a sale contract.
- If the contract is to be worked on during multiple time periods, a mid-contract "pull-off" inspection meeting is required. Notice shall be given by the contractor a minimum of 1 week prior to moving equipment off-site. During the pull-off inspection, provisions needing attention will be documented. At that time the contractor and forester will decide whether to remedy them before moving equipment off the site; or remedy them when

moving back onto the site. If the latter is chosen, the documented items shall be addressed before harvesting can continue.

- Landing and skid trail locations must be approved by the DNR Forester or Property Manager prior to starting work on the sale. All existing trails, roads, and clearings used for logging operations must be restored to pre-sale conditions by the purchaser.
- Rutting shall be monitored and if soil disturbances become excessive, harvesting operations may be suspended until the affected areas are repaired properly.
- No woodpiles may be left on the landing for more than 30 days without advance approval of the Seller.
- Chronic Wasting Disease (CWD) and Invasive Species Inspections
 1. All equipment, trucks and specifically off-road logging equipment shall be free of plant material and soil, prior to entering the property. The Purchaser will contact the seller 48-hours prior to delivering equipment to the property to arrange for on-site inspection.
 - a. Off road logging equipment must be inspected upon arrival to the property. Inspection by Forester or Wildlife staff must occur prior to each entry into the property (example: if you move logging equipment from the property to a different job off site for a week, prior to re-entering the property with that logging equipment, it must be re-inspected).
 - b. After initial inspection, it is the responsibility of the Purchaser to ensure pickup trucks and logging trucks are clean and free of plant/soil materials upon each entry.
 2. To avoid spreading CWD prions and invasive plant materials, all equipment must be cleaned prior to entering and leaving the property.
- Follow WI BMP's for water quality at all times. Avoid wetlands as much as possible and only operate within them during very dry times with timber matting or under frozen ground conditions. Some areas of this sale will likely require frozen ground conditions due to access across wetlands.
- Check the contract for other requirements.

The award shall be based on this TOTAL BID AMOUNT:

Performance Bond

Will be in the form of: (select one)

☐ Personal Check

☐ Assurance Bond

☐ Certified Check/Money Order

☐ Certificate of Deposit

☐ Irrevocable Letter of Credit

☐ Assignment of Savings Account

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. **I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount.** Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award may be made to the next highest qualified bid.

☐ By checking this box, I certify that I hold a Wisconsin Master Logger Certification.

Notice: I understand:

Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
