

**STATE OF WISCONSIN
DEPARTMENT OF NATURAL RESOURCES**

TIMBER SALE PROSPECTUS

Invitation for Bids on State-Owned Pulp and Timber in Lincoln County

Spring 2018

Sealed Bids for stumpage will be accepted by the Wisconsin Department of Natural Resources (WDNR) at the Merrill Ranger Station, 101 Eagle Dr., Merrill, Wisconsin 54452 up to 1:00pm on Friday, May 25, 2018

Detailed information and maps of each tract and blank timber sale bid forms are available from the DNR station in Merrill. Please note that there are different minimum bids for each job.

BIDDING INFORMATION

No bid bond is required. A 25% performance bond will be required from the successful bidder on all sales at contract signing.

Bids must be submitted using the DNR standard bid form and shall include the following:

- Job Name as shown on the timber sale map.
- List of species to be cut and estimated volume as shown on the map or prospectus.
- Your bid price per unit for each species and product
- Signature and address of the bidder
- Individual bids placed in a sealed envelope labeled "Timber Sale Bid" and listing the Job name being bid on
- Contractors desiring to bid on more than one job must submit separate bids on each job.

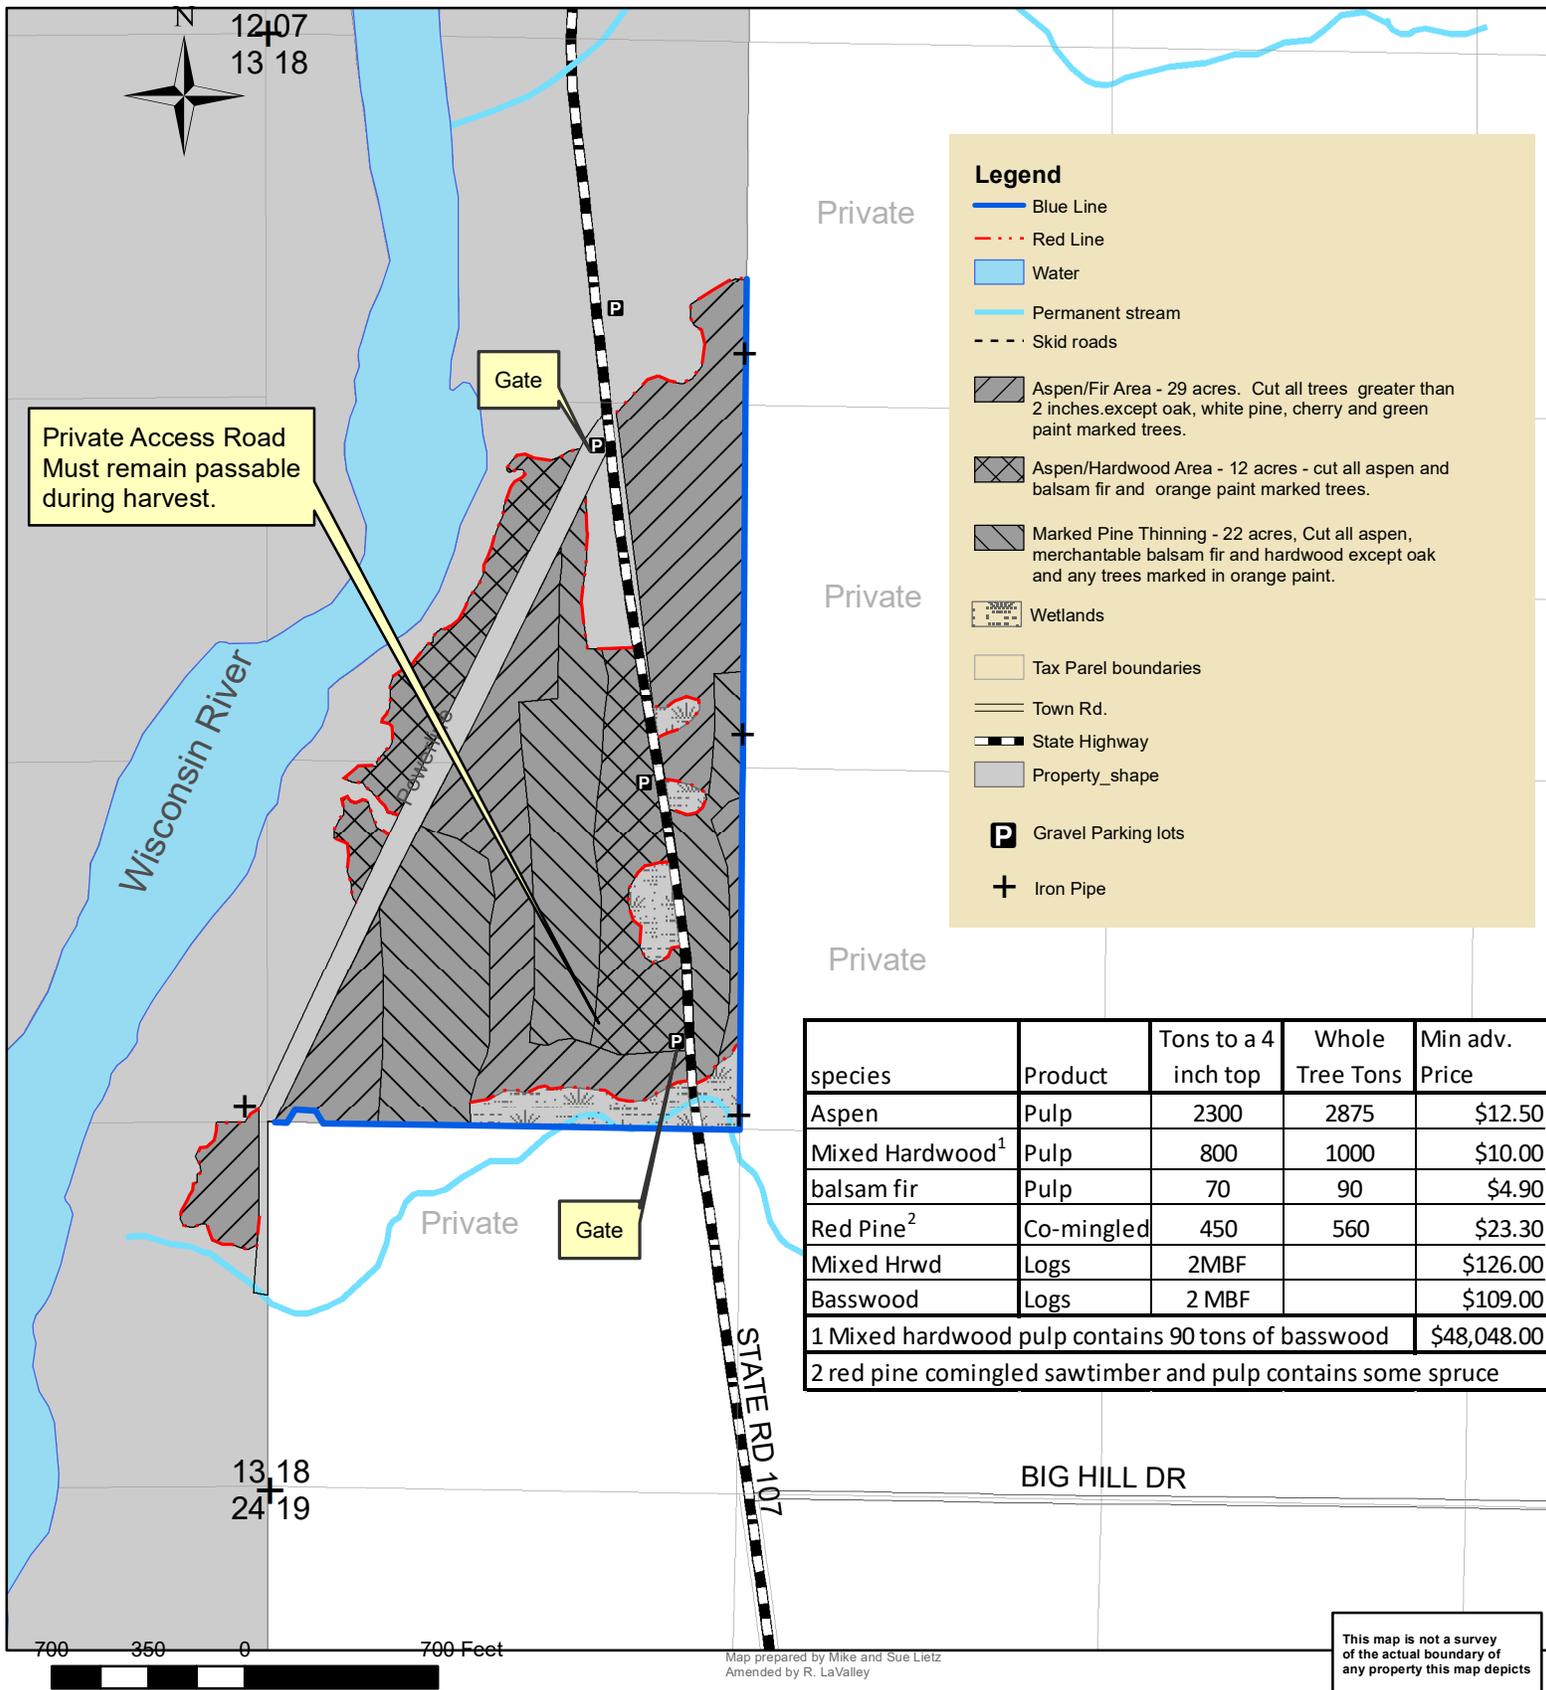

Submit your sealed bid(s) to the Merrill Ranger Station location only, prior to the deadline! Anyone not familiar with the bidding procedure may contact Rich LaValley or Bill Groth at the Merrill Ranger Station.

All bids will be opened beginning at 1:00 pm on Friday, May 25, 2018 at the Merrill Ranger Station in Merrill, WI. No bids will be accepted after the bid opening is initiated. All bidders are invited to attend the bid opening. WI DNR reserves the right to reject any and all bids. Any sale that is unsold will be automatically rebid and a bid opening held one month later. Bids will be accepted on rebid sales up until 1:00pm on the day of the second bid opening.

Please call us before the bid opening if you have any questions.

Wisconsin Department of Natural Resources
Bill Cross Rapids Wildlife Area Sale
Sale #3523-001-2017
T32N R6E Section 13 and 18
Harvest Area - 63 acres

This is a 4 year contract with price increase in year 4 of 10%. No cutting between March 15 and July 1. Harvesting allowed when the ground is frozen or dry enough to prevent rutting. The decision on appropriate conditions will be at the discretion of the DNR forester administering the sale.

This is a scale sale requiring a 3 part ticket system. All products hauled must have a DNR provided ticket filled out and deposited in a DNR provided lock box before the product leaves the sale. Payment for scaled wood is billed and payment required within 30 days unless the successful bidder is on the advance pay only list.

This timber sale consists of 63 acres. Harvest prescriptions are:

- Aspen regeneration harvest – All tree greater than 2 inches in diameter are to be cut except cherry, oak, white pine and green paint mark trees – 29 acres.
- Conversion to hardwood harvest – This area will have all aspen and balsam fir harvested and all other trees will remain unless painted in orange paint. – 12 acres
- Red Pine improvement thinning 2nd thinning. Cut all aspen, merchantable balsam fir, merchantable hardwoods except oak, and all pine marked in orange paint. – 22 acres

No harvesting between March 15 and June 30th.

25% of the total sale bid value will be required for a performance bond.

The contract period is 4 years. (A 10% price increase in year 4 if sale extends to that year).

Estimated Volume in Tons	63 acres				
	4 inch top vol.	Whole tree		advertised value to a 4 inch top	
Aspen	2300	2875	tons	\$12.50	\$28,750.00
Mixed Hardwood – 1	800	1000	tons	\$10.00	\$8,000.00
Balsam fir	70	90	tons	\$4.90	\$343.00
Red Pine – 2	450	560	Comingled tons	\$23.30	\$10,485.00
Mixed Hardwood	2MBF		MBF	\$126.00	\$252.00
Basswood	2 MBF		MBF	\$109.00	\$218.00
					\$48,048.00

- 1 - Mixed Hardwood pulp contains 90 tons of basswood.
2 – Red pine will contain a small amount of spruce.

Special conditions

1. Tops inadvertently felled across blue or yellow paint line must be removed concurrently with cutting.
2. Cutting must be concurrent for all species to be harvested.
3. If accessing the sale from the private access road on the south west side of highway 107 the gate must be closed each night and the trail must be kept clear of debris and passable.
4. Landings and road locations must be approved prior to construction.
5. BMP's will be followed.
6. Tops dropped into wetlands must be removed concurrently to harvesting.
7. Whole tree harvesting will require 1 out of 10 tops be left in the stand.
8. If pine units are cut in the summer when temperatures are above 40 F the purchaser must complete Annosum root rot preventive treatment. Treatment must be performed by a Certified Pesticide Applicator. Treatment involves chemically treating all fresh-cut stumps of pines of merchantable size with an approved treatment.
9. If a wood turtle is encountered during the harvest activities the contractor or their employees will move the turtles out of the sale area to prevent injury or mortality.

Contract may contain additional provisions

Cutting Conditions

Tract 3503-001-2017

Lincoln County

Menard Island Salvage

T35N R7E Section 12

Contract length is **2 years**.

No harvesting between March 15th and August 15th to encourage maximum aspen regeneration.

The harvest area consists of approximately **43 acres**. Harvest all merchantable aspen and mixed hardwoods. No cutting of oak, spruce, red pine or white pine.

All trees that that will yield one or more 100 inch sticks to the minimum top diameter of 4 inches will be cut and utilized.

25% of the total sale bid value will be required for a performance bond.

This is a sale requiring a 3 part ticket system. All products must have a DNR provided ticket filled out and deposited in a DNR provided lock box before the product leaves the sale. Payment for scaled wood is billed and payment required within 30 days unless the successful bidder in on the advance pay only list.

Estimated Volume - Menard Island Salvage (43 Acres)				
Species	4"	Units	Advertised Price Per Unit	Total Advertised Value
Aspen	1295	Tons	\$8.00/Ton	\$10,360.00
Mixed Hardwood ¹	570	Tons	\$7.30/Ton	\$4,161.00

¹- Approximately 53% white birch and 47% red maple by volume.

Special Conditions

1. Harvesting is restricted to frozen ground or dry ground conditions outside of the March 15th to August 15th no harvesting period upon approval of the administering forester.
2. Roads and landings within the timber sale and that access the timber sale will be repaired if damaged at the end of each harvesting season (if harvest occurs in multiple years).
3. Cutting must be concurrent for all species to be harvested.
4. Tops felled into wetlands must be removed concurrently with cutting.
5. BMP's will be followed.
6. Whole tree utilization or biomass harvesting is not allowed due to low soil fertility.
7. Do not cut, knock down, or utilize and dead trees unless they pose an operational hazard.
8. If a wood turtle is encountered during the harvest activities the contractor of their employees will move the turtles out of the sale area to prevent injury or mortality.

Hackbarth Sale - 3507-1-2018
T33N R2E Section 2 - 70 acres

1 inch = 938 feet

This is a scale sale requiring a 3 part ticket system. All products hauled must have a DNR provided ticket filled out and deposited in a DNR provided lock box before the product leaves the sale. Payment for scaled wood is billed and payment required within 30 days unless the successful bidder is on the advance pay only list.

This timber sale consists of one 70 acres. Harvest prescriptions are:

- Individual tree selection harvest in northern hardwoods. Cut all aspen, and merchantable balsam fir and all other trees marked in orange paint Do not cut trees marked in Green paint. – 8 acres
- Improvement thinning. Cut all aspen and fir and trees marked in orange paint. 5 acres of red pine row thinning and 3 acres of spruce plantation row thinning.
- Aspen regeneration harvest through coppice regeneration. Cut all trees except those marked in green paint. – 30 acres
- Tamarack regeneration harvest - Cut all trees except those marked in green paint. – 24 acres

Harvesting is restricted to frozen conditions.

25% of the total sale bid value will be required for a performance bond.

The contract period is 4 years. (A 10% price increase in year 4 if sale extends to that year).

Estimated Volume in Tons	70 acres				
	4 inch top vol.	Whole tree		advertised value to a 4 inch top	
Tamarack	1100	1320	tons	\$5.00	\$5,500.00
Aspen	860	1075	tons	\$9.20	\$7,912.00
Balsam fir	350	420	tons	\$4.30	\$1,505.00
Spruce	305	365	tons	\$13.20	\$4,026.00
Mixed Hardwood	625	800	tons	\$9.00	\$5,625.00
Red Pine	225	280	tons	\$15.00	\$3,375.00
					\$27,943.00

Special conditions

1. The DNR has acquired a permit to place a culvert and reconstruct the road at the end of Daxis Rd. The successful bidder will be responsible for purchase of a 30-inch culvert 30 feet long and place the culvert, build up the old road bed from the end of Daxis Rd. to the red pine plantation, clearing and removing the stumps for a 60 foot by 60-foot landing, and clearing and removing stumps for a main skid trail at locations indicated on the sale map. The successful bidder will be required to place 6 inches of gravel on the newly constructed road and parking lot. It is estimated that it will require 200 yards of 1 inch aggregate to gravel this area. The DNR sale administrator will work with the successful bidder to implement this practice.
2. Tops inadvertently felled across blue or yellow paint line must be removed concurrently with cutting.
3. Cutting must be concurrent for all species to be harvested.
4. Access across private property is the responsibility of the contractor.
5. Landings and road locations must be approved prior to construction.
6. BMP's will be followed.
7. Whole tree harvesting will require 1 out of 10 tops be left in the stand.

This map is not a survey of the actual boundary of any property it depicts

This is a scale sale requiring a 3 part ticket system. All products hauled must have a DNR provided ticket filled out and deposited in a DNR provided lock box before the product leaves the sale. Payment for scaled wood is billed and payment required within 30 days unless the successful bidder is on the advance pay only list.

This timber sale consists of 42 acres of harvest area. Two acres is a red pine thinning. Harvest all trees marked in orange paint, 22 acres of aspen regeneration harvest where all trees will be harvested that are greater than 2 inches except for pine, hemlock and yellow birch. There is 15 acres of improvement thinning in a mixture of white pine, spruce and planted red pine. In this area all aspen and fir will be cut along with trees marked in orange pain. Finally, 3 acres of Individual tree selection harvest in hardwoods. In this stand only trees marked in orange paint will be harvested.

Harvesting will not be allowed between March 15 and June 15 to maximize aspen re-spouting.

25% of the total sale bid value will be required for a performance bond.

The harvest area is approximately 42 acres.

Estimated Volume in Tons		42 acres			
	4 inch top Vol.	Whole tree vol.		advertised value	
Aspen	630	790	tons	\$11.40/ton	\$7,182.00
Mixed Hardwood 2	340	425	tons	\$10.70/ton	\$3,638.00
Balsam fir	265	330	tons	\$3.30/ton	\$874.50
Red Pine 1	170	215	Comingled tons	\$18.70/ton	\$3,179.00
White Pine	70	85	Comingled tons	\$7.80/ton	\$546.00
Spruce	20	25	Comingled tons	\$12.30/ton	\$246.00
Total	1495	1870			\$15,665.50

1 –Red Pine comingles volume includes 5 cords of jack pine.

2 – Mixed Hardwood volume contains approximately 25 cords of birch and 5 cords of basswood and 1 MBF of logs

Special conditions

1. Roads and landings within the timber sale and that access the timber sale will be repaired if damaged at the end of each harvesting season (if harvests occur in multiple years). Roads and landings will be seeded by the end of the sale contract. Contractor will provide the seed to DNR specifications
2. Tops inadvertently felled across blue or yellow paint line must be removed concurrently with cutting.
3. Cutting must be concurrent for all species to be harvested.
4. Tops felled into wetlands must be removed concurrently with cutting.
5. Access across private property is the responsibility of the contractor. The Landowner to the south of this property has been contacted and is willing to provide access.
6. Landings and road locations must be approved prior to construction.
7. BMP's will be followed.
8. Whole tree harvesting will require 1 out of 10 tops be left in the stand.
9. This is a 4-year contract. If the sale extends to the 4th year there is a price increase of 10%. No additional extensions will be granted beyond 4 years.
10. If pine units are cut in the summer when temperatures are above 40 F the purchaser must complete Annosum root rot preventive treatment. Treatment must be performed by a Certified Pesticide Applicator. Treatment involves chemically treating all fresh-cut stumps of pines of merchantable size with an approved treatment.

1 inch = 660 feet

This is a scale sale requiring a 3 part ticket system. All products hauled must have a DNR provided ticket filled out and deposited in a DNR provided lock box before the product leaves the sale. Payment for scaled wood is billed and payment required within 30 days unless the successful bidder is on the advance pay only list.

This timber sale consists of 52 acres in 3 harvest blocks. Seventeen acres of the sale is an aspen regeneration harvest where all trees greater than 2 inches in diameter except white and red pine, spruce, hemlock and oak are to be cut. Nine acres is an improvement thinning in natural white pine. In this area cut all merchantable balsam fir, aspen and trees marked in orange paint. Finally, there is 26 acres of individual tree selection harvest where only trees marked in orange paint are to be harvested.

No harvesting between March 15 and June 30

This is a dry summer or winter harvest under frozen conditions to minimize rutting.

25% of the total sale bid value will be required for a performance bond.

The contract period is 4 years. (Price increase in year 4 of 10%).

Estimated Volumes - Tons (to a 4 inch top and whole tree)	52 Acres		Advertised Value	Advertised min. bid price
	4-inch vol.	whole tree vol.		
Aspen	1280	1600 tons	\$12.40/ton	\$15,872.00
Mixed Hardwoods ¹	475	600 tons	9.90/ton	\$4,702.50
Balsam fir	250	310 tons	\$5.00/ton	\$1,250.00

Mixed Hardwood	4MBF	MBF	\$113.00/MBF	\$452.00
				\$22,752.50

1 Mixed hardwood pulp contains approximately 26 tons of basswood.

2 White Pine pulp contains approximately 15 tons of spruce.

Minimum bid price is based on the estimated volume to a 4-inch top diameter.

Special conditions

1. Roads and landings within the timber sale and that access the timber sale will be repaired if damaged at the end of each harvesting season (if harvests occur in multiple years). Roads and landings will be seeded by the end of the sale contract. Contractor will provide the seed to DNR specifications
2. Tops inadvertently felled across blue or red paint line must be removed concurrently with cutting.
3. Cutting must be concurrent for all species to be harvested.
4. Tops felled into kegs or vernal pools must be removed concurrently with cutting.
5. Landings and road locations must be approved prior to construction.
6. BMP's will be followed.
7. Whole tree harvesting will require 1 out of 10 tops be left in the stand.
8. Access across private property is the responsibility of the successful bidder.
9. Warning signs must be placed along the Ice Age trail while harvesting is in progress or hauling occurs while the trail is open.
10. All debris must be promptly removed from the Ice Age trail.
11. Locations where crossing on the Ice Age trail must be agreed upon prior to skid trail construction.
12. All slash within 50 feet of the Ice Age trail must be lopped and or scattered to lie within 2 feet of the ground.

Prompt and proper treatment of slash where required. It is the responsibility of the timber contractor to spread out all landing debris (slash, stumps, chips etc.) over the sale area to lay within 2 feet of the ground concurrent with hauling.

All pulp volumes include bolts. Mixed hardwood volume is approximately 75% maple 15% ash and 5% birch. Lump sum sale with two cutting units. Unit 1 is 80 acres 54% of the total sale value paid prior to cutting. Unit 2 is 69 acres, 46% of the total sale value paid prior to cutting.

This map is not a survey of the actual boundary of any property this map depicts.

This is a lump sum sale and will require prepayment of the cutting unit before it is cut. Payment will be based on the total bid value for the sale. Unit 1 will be 54% and Unit 2 will be 46% of the total sale value.

This timber sale consists of 2 cutting units. The main blocks are comprised of 40 acres of clear-cut and 109 acres of selection harvest.

Harvesting is restricted to dry or frozen conditions.

Unit 1 - No logging between February 1 and June 30th to avoid disturbing a hawk nest.

Unit 2 - No logging between March 15th and June 30th.

There are some low wet areas, and depending on weather may have to be accessed during frozen conditions. Soils are heavy and wet weather will restrict harvesting.

Road building and landing construction - There is a access road that needs to be built by the contractor. This road is .3 mile with a 12 foot road surface width with ditch and crown. There are two landings (100ft x 100ft) that need to be cleared of trees and stumps and require gravel. The road and landings will require about 600 yards of gravel (4inches thick along road). The gravel can come from one of the nearby pits on the DNR property. The pits will need to be leveled and seeded by the contractor when the sale is completed.

25% of the total sale bid value will be required for performance bond.

The cutting area is approximately 149 acres.

This is a 4 year contract. If the sale extends to the 4th year there is a price increase of 10%.

No extensions will be granted beyond 4 years.

Special Conditions

1. Roads and landings within the timber sale must be seeded by the end of the timber sale contract. Contractor will provide the seed to DNR specifications.
2. Tops inadvertently felled across blue paint lines must be removed concurrently with cutting.
3. Cutting must be concurrent for all species to be harvested.
4. Landing and road locations must be approved prior to construction.
5. Tops felled into the kegs must be removed concurrently with cutting.
6. Access across private property is the responsibility of the contractor.
7. Do not cut any trees marked with blue, green, yellow, or red paint.
8. BMP's will be followed
9. Whole tree harvesting will require 1 out of 10 tops be left in the stand.
10. Equipment must be cleaned of invasives prior to entering the sale.
11. Canopy gaps are marked in purple. Cut purple trees and all trees inside the gap. A purple V faces inside the gap.

Prompt and proper treatment of all slash where required. It is the responsibility of the timber contractor to spread out all landing debris (slashed ends, stumps, slash, chips etc.) over the sale area to within two feet of the ground concurrently with hauling.

Existing roads and landing sites will be restored or repaired if damaged.

Contract may contain additional provisions

VOLUMES

Cruise accuracy – The cruise accuracy for the total cord equivalent volume is the State standard of +/- 15%. The cruise is only an estimate and there is no guarantee that the cut volume will match the cruise or be within the cruise accuracy percentages.

All trees that will yield one or more 100-inch sticks to a minimum 4 inch top diameter or whole tree will be cut and utilized.

Estimated Volumes - Tons

(to a 4inch top & whole tree)

149 acres

TOTAL

Advertised value

- Assurance Bond
- Certificate of Deposit
- Assignment of Savings Account

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. **I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount.** Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

Notice: I understand:

Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
