August 31st, 2019

Central Wisconsin Logging Contractors:

The Wisconsin Department of Natural Resources (DNR) will conduct a bid opening for twelve (12) timber sales on state owned land in Marathon County and one (1) timber sale on school forest property on Monday, September 23rd, 2019, at 12:00pm.

Included with this invitation is a timber sale prospectus for each sale for you to review and consider. Sales below minimum total bid price will be rejected. Sample, standard DNR timber contracts, which contain additional provisions and standard weight conversions, are available upon request.

All bids must be received at the Wausau Service Center, located at 5301 Rib Mt. Drive by 12:00pm on Monday September 23rd, 2019. Bids will be opened publicly immediately thereafter at the same location. Contractors desiring to bid on more than one tract must submit separate bids for each tract in a sealed envelope. The Department of Natural Resources reserves the right to reject any or all bids.

All bids must include the following:

1. Use department “Timber Sale Bid” Form # 2400-049, attached to each prospectus.
2. Legible bid price per unit for each species and product listed on each prospectus.
3. Bid forms with a zero for any species will be rejected. Bid forms missing any of the advertised species will be rejected.
4. Complete legible bidder information block and sign the timber sale bid form.
5. Seal each bid in a separate envelope marked: “Timber Sale Bid – Tact: ####-###-#### or Sale Name.”

Performance Bonds:

No bid bond required. Winning bidder will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the State. A 25% performance bond is required on all sales. Performance bonds shall be in the form of a personal check, certified check, cashier check, bank money order or a Letter of Credit. If using a letter of credit for the performance bond it must be issued for two years past the contact period in order to provide for a one year extension if needed as well as to allow for time to close out the timber sale. In addition, timber sale contracts may not be re-assigned.

Workman’s Compensation law Compliance:

A certificate of insurance showing proof of “Worker’s Compensation Law” compliance is required to be on file prior to beginning any work on a contract area. The certificate on file must cover the entire contract and all employees working on the sale area. The purchaser shall notify the Department in writing, immediately upon any change in or cancellation of insurance coverage required under the contact.

Training Requirement:

Logging contractor must document compliance with Wisconsin SFI (Sustainable Forestry Initiative) training standard as adopted by the Wisconsin SFT Implementation Committee (SCI). Criteria for the standards can be found at the Web site: www.fistausa.org/sfi_standards.html or by contacting the Forest Industry Safety & Training Alliance (FISTA).
Contract:

Contract must be signed within two weeks of the bid acceptance. A sample contract is available upon request and may contain additional provisions. Lack of contract knowledge will not be accepted as a reason the invalidate your bid(s).

Conditions of Sale:

1) Timber volumes are estimated but not guaranteed. Estimates were determined by using individual Scribner Decimal C tree tally for sawlogs and a systematic cruise using a 10-factor prism for pulpwood.
2) Liability to pay double the stumpage value for unmarked or undesignated timber cut or damaged through negligence or carelessness.
3) Trails must follow the guidance in the WDNR Best Management Practices manual. Skid trails and landing locations must be approved by the DNR Forester prior to use. Harvests may only occur on dry or frozen ground to prevent rutting.
4) In order to minimize the spread of invasive plants, all equipment must be washed or cleaned prior to entering and leaving the sale.

These lands are FSC and SFI certified
