

## Invitation for Bids on Timber Stumpage

DEPARTMENT OF NATURAL RESOURCES  
KETTLE MORAINES STATE FOREST - SOUTHERN UNIT  
Timber Sale Tract 8 - 2018  
Eagle 8910 Sale

The Wisconsin Department of Natural Resources is offering for sale certain timber on the following described areas in the Kettle Moraine State Forest - Southern Unit.

The sale will be sold as one tract. Prospective bidders are urged to examine this timber and to make their own evaluation of quality and quantity.

Tract 8 - 2018 Eagle 8910 Sale - Part of Sections 3 and 10 in T5N R17E, Eagle Township in Waukesha County.

This sale includes a total of 106 acres of hardwood timber. The harvest involves a combination of shelterwood harvesting and thinning, with the trees to be cut marked with orange paint. In addition, through the entire sale area all aspen, box elder, black locust and mulberry in the sale area are to be cut whether marked or not. The timber sale maps show the areas marked for harvest.

### Timber Sale Summary

<u>Species</u>	<u>Estimated Volume</u>	<u>Minimum Price per unit</u>
Red oak	62 MBF	\$158.00 per MBF
White oak	16 MBF	\$95.00 per MBF
Black oak	22 MBF	\$44.00 per MBF
Burr oak	26 MBF	\$44.00 per MBF
Black cherry	11 MBF	\$98.00 per MBF
Hickory	4 MBF	\$63.00 per MBF
Elm	1 MBF	\$63.00 per MBF
Butternut	1.4 MBF	\$63.00 per MBF
Mixed Hardwood	1.2 MBF	\$72.00 per MBF
Aspen	245 cords	\$5.90 per cord
Mixed Hardwood	110 cords	\$6.30 per cord
Oak	100 cords	\$6.30 per cord

Sealed bids will be received by the Forester up to 1:00 pm on Tuesday, April 2, 2019 at the Kettle Moraine State Forest Headquarters, S91 W39091 Highway 59, Eagle, Wisconsin 53119. Bids will be opened at that time.

Bids shall include the following and be submitted on Form #2400-49.

1. Tract number
2. List of species to be cut and estimated volume
3. Bid prices per unit for each species and product
4. Signature and address of bidder

The Department of Natural Resources reserves the right to reject any or all bids.

These lands are 3<sup>rd</sup> party certified.

## Timber Sale Prospectus and Contract Procedures

### **A. Bidding, Payment and Contract Procedures.**

1. Bids shall be submitted in sealed envelopes and marked "Bid for Timber Stumpage" on the outside.
2. The Department of Natural Resources reserves the right to reject any and all bids.
3. Bids will be accepted or rejected within 14 days at which time a contract will be drawn up and signed.
4. **No bid bond is required when bidding on this sale**, however winning bidders will still have to submit a performance bond equal to 15% of the estimated sale value using any of the normal forms of payment: cash, a certified check or bank money order, company (personal) check, or irrevocable letter of credit, to be held until the contract is fulfilled. \*\* If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.  
\*\* If an irrevocable letter of credit is to be used for the performance bond, then the term of the letter MUST extend six months beyond the contract expiration date. As this contract will expire on April 16, 2021, then an irrevocable letter of credit shall run through October 16, 2021. After satisfactorily completing the sale, the bond may be credited as payment for stumpage (on another state timber sale), refunded, or withheld in total, or in part, as liquidated damages according to the condition of the sale.
5. All stumpage payments will be cash, certified check or bank money order, or company (personal) check. Stumpage payments shall be made before the removal of timber from the sale area unless otherwise specifically authorized by the Department forester administering the sale.
6. The contract period will be for two (2) years, expiring on April 16, 2021. Certification of workmen's compensation must be provided before the contract will be signed.
7. **LOGGER TRAINING REQUIREMENT:** As of 1/1/2006, the Wisconsin Department of Natural Resources requires that logging contractors that operate on state land be appropriately trained. This is to comply with forest certification requirements and to promote the health and welfare of logging contractors. Purchasers of state timber sales are responsible for ensuring that the actual logging contractor engaged in the performance of the contract complies with the Wisconsin SFI (Sustainable Forestry Initiative) Training Standard as adopted by the Wisconsin SFI Implementation Committee. Criteria for the standard can be found at the website [www.fistausa.org/sfi\\_standards](http://www.fistausa.org/sfi_standards) or by contacting the Forest Industry Safety & Training Alliance (FISTA). Documentation confirming completion of the training standard will be required prior to signing sale contracts.

### **B. Cutting and Operational Requirements**

1. Cutting specifications are shown on the timber sale map. Cut all trees marked with orange paint on the stem and on the stump, unless otherwise designated by the Forester. In all areas, cut all aspen, box elder, black locust and mulberry within the sale area whether marked or not.
2. All trees marked or designated for cutting shall be utilized to a five-inch top diameter for pulpwood, 9" top diameter for sawlogs. Maximum stump height shall not exceed stump diameter. Damage to residual trees is to be kept at a minimum, and careless equipment operation will not be tolerated.

3. All slash shall be lopped and/or scattered to lie within three feet of the ground; slash must also be removed from all public access trails and roads. Slash shall be removed from trails so that it does not lie on OR protrude into the trail zone. Slash that may fall in these areas must be removed immediately. This is to be done concurrent with the cutting operation.
4. This sale area is crossed by a horse/snowmobile trail as shown on the timber sale map. Damage to this trail will not be tolerated and any damage that may occur must be repaired immediately. The trail may be crossed by equipment as needed as long as conditions allow (frozen or dry and firm ground) but running equipment on the trails shall not occur unless permitted by the Forester. \*\* In addition, due consideration must be given to any trail users, especially those on horseback, stopping operations (when working near the trail) until the horse and rider have passed.
5. Rutting is a serious concern of this forest. Varied skidding routes should be taken, if necessary, to avoid excessive rutting. Excessive rutting or any other damage caused by the harvesting operations must be repaired in a timely manner to the satisfaction of the Forest Superintendent. Ruts will be considered excessive if they are 6 inches or greater in depth. Within 100 feet of the trails, rutting excessiveness will be determined by the Forest Superintendent, and may be more restrictive than the 6" maximum.
6. The location of yarding sites is subject to advance approval of the Forest Superintendent and Forester. Yarding areas must be cleared of stumps, down trees, trash and kept neat and in good repair during the contract period. Cut-offs or other wood debris must be cleared from the site in a neat manner, not simply pushed in a pile at the edge of the area used.
7. The Forest Superintendent or Forester reserve the right to terminate logging activities during unusual weather conditions.
8. The cost of the repair or replacement of any land survey, monument or accessory that is removed, destroyed or made inaccessible shall be withheld from the deposit. In the event that the deposit is insufficient to cover such cost, the provisions of Statute 59.635 shall be enforced.
9. Cutting of these areas shall be completed during the contract period. \*\* This includes the removal of the cut wood from the sale area. Extension may be granted by the DNR or its authorized representative for six month periods, at their discretion. \*\*\* A reasonable effort must be shown to complete the sale during the contract period to warrant an extension. No penalty will be assessed for the first extension. All stumpage payments will be increased 5% for the second extension and increased 10% for additional extensions.
10. No cutting or skidding operations may take place from April 1<sup>st</sup> through July 31<sup>st</sup> due to oak wilt concerns.

**C. Operator Instructions for Wood Hauling and Scaling Procedures.**

1. Mill scale, weight or measured, shall be used for pulpwood and sawtimber. The ticket system will be utilized for all wood hauled. If scaling conversions are necessary, they shall be calculated at the rate of 2.2 cords per one thousand board feet for all hardwoods and aspen. Weight conversions, if necessary, will be at the following rates: 4,500 pounds per cord for aspen, and 5,000 pounds per cord for mixed hardwoods. If wood is being hauled to a purchaser that cannot or will not return a scale slip to this Forest, then the wood must be scaled by the Forest representative before being hauled.
2. Price per ticket (for contractors required to pre-pay, or those preferring this method) will be based on bid price per cord and average cords per haul.

3. A wood hauling ticket must be made out for each truckload of wood leaving the sale area.
4. The wood hauling ticket will be filled out, and the top copy detached and dropped in a lock box BEFORE the loaded truck leaves the sale area.
5. Truck driver must have corresponding and current sale hauling ticket in possession when transporting state forest wood.
6. The Department of Natural Resources reserves the right to have its agents check scale at any time.
7. The third portion of the wood hauling ticket must be detached and deposited with mill scaler at the time of wood delivery.
8. The timber sale contractor will be accountable for all hauling tickets issued to him.
9. Upon completion of the timber sale, all unused haul tickets will be returned to the Kettle Moraine State Forest - Southern Unit headquarters.
10. Hauling tickets may not be transferred between contractors.
11. Lock boxes will be provided by the Department of Natural Resources representative.
12. A list of all wood destinations will be given to the Forester by the operator. Any change in wood destination will be reported to the Forester before any wood products are hauled to the new destination.
13. Failure to follow the above provisions will be a violation of the sale contract.

# Eagle 8910 Sale (106 acres)

Scale: 10" = 1 mile, 1" = 528' (1:6,336)

Cut all trees marked with orange paint. Also cut all aspen, mulberry and black locust whether marked or not.

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. **I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount.** Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

**Notice:** I understand:

Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
