THE FOLLOWING TIMBER SALE TRACTS ARE OPTIONAL PULPWOOD VOLUME SALES:

TRACT #1-26 – CAVEMAN CONIFER,
TRACT #1-24 – OCEAN DWELLER CONIFER,
TRACT #5-25 – ONE FIVE HARDWOODS,
TRACT #8-24 – FREEBIRD BABY CONIFER

The Division of Forestry is offering a new method for advertising timber for sale. **In these 3 sales, the MX Hardwood (MX), Aspen (A), Oak (OO), or Cedar (C) pulpwood volumes are optional to bid on**. Contractors may bid on all, none, or a portion of the optional pulpwood volume listed on sale prospectus and bid form. Contractors choose the volume available to bid on to meet their ability to move the pulpwood.

The sale will be awarded to the highest bidder (value) for the sale regardless of the total volume bid on. The State reserves the right to reject any and all bids.

1. Contractor MUST bid on all the required volumes (MBF, Boltwood, and Conifer Pulp), and must cut and remove the required volumes.

2. Contractor has the option to bid on 0-100% of the estimated pulpwood volume. You will be required to fill in the volume and value in the bid form provided.

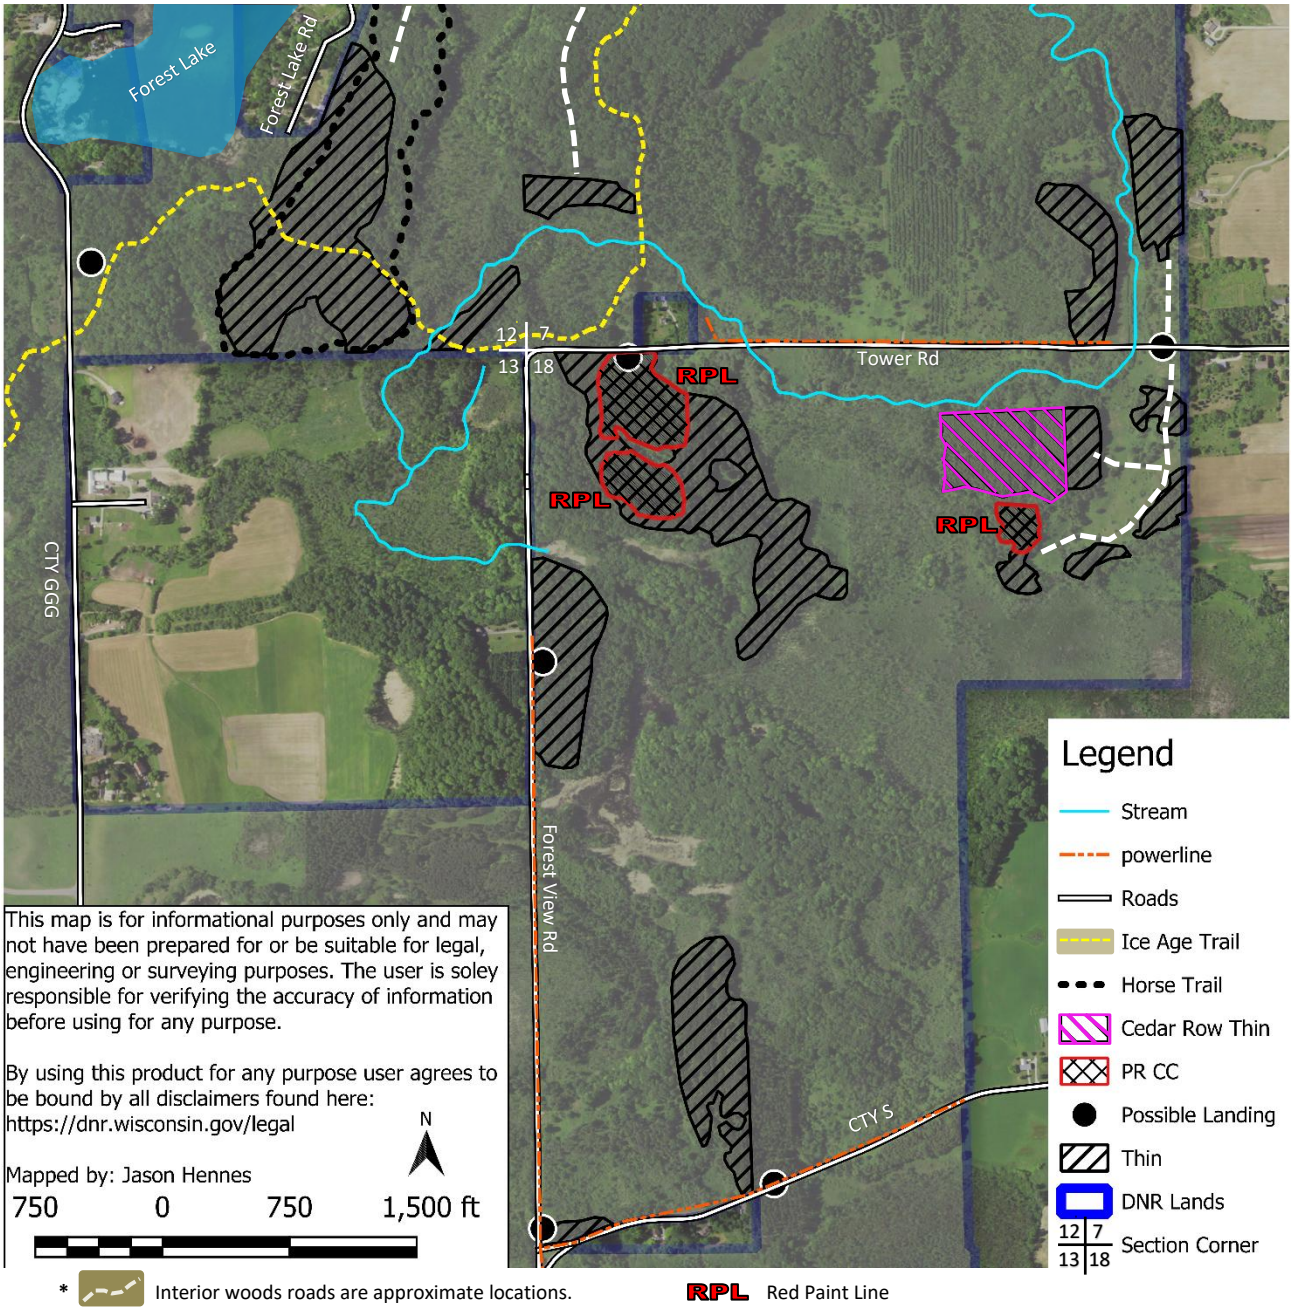

3. If the winning bidder, bids on any or all the optional pulpwood volume, and upon harvesting the sale.
    a. Will be required to utilize the optional bid volume. Contractor would then be allowed to leave the unused volume in the sale per slash requirements.
    b. Chooses to utilize additional optional volume above the bid volume amount, will be billed at bid price for optional volume.

4. If the winning bidder, **doesn't bid** on any or all the optional pulpwood volume, and upon harvesting the sale.
    a. Wants to utilize any or all the optional pulpwood volume, a contract rate and volume will be agreed upon along with a contract amendment.
    b. Chooses not to utilize any or all the optional pulpwood volume, Contractor must still cut all designated trees per prospectus conditions and leave the unused volume in the sale per contract slash requirements.
