Cutting Specifications

Unit 1 (57 acres) - Aspen Coppice harvest: Cut all stems 2" and greater except do not cut pine, spruce, hemlock, oak and green marked trees. Area bound by red paint line and obvious natural boundary.

Unit 2 (7 acres)- Birch seed tree harvest: Frozen ground only: Cut all stems 2" and greater except do not harvest aspen, spruce, hemlock, oak, cedar and green marked trees. Area is bound by red paint line.

Operational Considerations-

- Snags and dead trees will be left unless they pose operational safety concern
- Slash will be scattered through sale area, must not be left in ROW, wetlands or on trails
- Frozen access to Unit 2, will have to freeze skid trail down through adjacent stand
- Powerline ROW runs through sale area, care must be taken in operations, and slash must be removed from ROW.
- BMPs for Water Quality and Invasives must be followed.
- Signage must be used on Wilson Lake Rd for traffic safety.
- Roads and trails utilized will be repaired to seller's satisfaction upon completion
