Tract UW 1-26 (Over Under Sale) – Underwood Wildlife Area
SE Section 3, T44N R03E. Town of Oma.
Iron County, WI.

The cutting area is 66 acres.

ESTIMATED VOLUME **(TONS)**
PULP 4" MINIMUM TOP DIAMETER, SAWLOG 10" DIB TOP DIAMETER

SPECIES	Units	
Mixed Hardwood[1]	1500	Tons
Basswood	35	Tons
Ash[2]	400	Tons
Mixed Hardwood[3]	20	MBF
Ash[4]	25	MBF
Hard Maple	10	MBF

Total Minimum Bid Value: $19,973.00

1. Approximately 85% sugar maple, 7% yellow birch, 6% red maple, and less than 2% ironwood and black cherry.
2. Approximately 51% green ash, 49% black ash.
3. Approximately 65% yellow birch, 35% basswood.
4. Approximately 60% green ash, 40% black ash.

Note: Total sale volume equates to approximately 30 tons/acre or 13 cords/acre.

This sale will be mill scaled. **Contract end date: June 30, 2028.**

Special Conditions:

1. SEASONAL RESTRICTIONS: Harvesting will only be allowed on thoroughly frozen ground.

2. Cutting must be concurrent for all species.

3. Do not cut, knock down, or utilize any dead trees unless they pose an operational safety risk EXCEPT for the purpose of salvaging ash trees.

4. Trees marked with purple paint must be cut and left to lay at the stump without further processing.

5. Slash will be scattered, not piled, through the sale area and compacted to lay 3 feet or less above the ground. No slash will be left across sale boundaries.

6. Follow WI BMP's for water quality at all times. Access roads must be adequately frozen prior to harvesting operations. Utilize slash mats when operating in any lowland areas.

7. Follow WI BMP's for Invasive Species at all times. Equipment must be washed before entering the property and before leaving.

8. Existing roads will be used to access the harvest area. Any new roads and landings must be discussed with and approved by the administrating forester in advance of use.

9. North Bass Lake Rd is a town road and snowmobile route. This road must be kept free of debris and snow covered in winter. Signage will be required notifying riders of logging traffic.
