**THE FOLLOWING TIMBER SALE TRACTS ARE OPTIONAL PULPWOOD VOLUME SALES:**

TRACT #1-24 – OCEAN DWELLER CONIFER,  
TRACT #8-24 – FREEBIRD BABY CONIFER

The Division of Forestry is offering a new method for advertising timber for sale. **In these 2 sales, the MX Hardwood (MX), Aspen (A), & Oak (OO) pulpwood volumes are optional to bid on.** Contractors may bid on all, none, or a portion of the optional pulpwood volume listed on sale prospectus and bid form. Contractors choose the volume available to bid on to meet their ability to move the pulpwood.

The sale will be awarded to the highest bidder (value) for the sale regardless of the total volume bid on. The State reserves the right to reject any and all bids.

1. Contractor **MUST** bid on all the required volumes (MBF, Boltwood, and Conifer Pulp), and must cut and remove the required volumes.
2. Contractor has the option to bid on 0-100% of the estimated pulpwood volume. You will be required to fill in the volume and value in the bid form provided.
3. If the winning bidder, bids on any or all the optional pulpwood volume, and upon harvesting the sale.
  - a. Will be required to utilize the optional bid volume. In the event the contractor is unable to market that volume, the contractor will at minimum be invoiced for the optional volume bid on and required to pay. Contractor would then be allowed to leave the unused volume in the sale per slash requirements.
  - b. Chooses to utilize additional optional volume above the bid volume amount, will be billed at bid price for optional volume.
4. If the winning bidder, **doesn't bid** on any or all the optional pulpwood volume, and upon harvesting the sale.
  - a. Wants to utilize any or all the optional pulpwood volume, a contract rate and volume will be agreed upon along with a contract amendment.
  - b. Chooses not to utilize any or all the optional pulpwood volume, Contractor must still cut all designated trees per prospectus conditions and leave the unused volume in the sale per contract slash requirements.

**\*Optional Pulpwood Specifications (Aspen, MX Hardwood, and Oak Pulpwood volume is optional to bid on):**

- If contractor bids on pulp volume, contractor is required to utilize (i.e., harvest, remove from the site, and pay for) the volume and value bid on.
- If contractor who bid on a portion of the pulpwood chooses to utilize additional volume over the volume bid on, the additional volume will be charged at contract rates.
- If a contractor who did not bid on the pulpwood is awarded the sale and the contractor later wants to utilize the pulp, a contract amendment with volumes/values will be made.
- Pulpwood that is not bid on remains the property of the DNR and may not be utilized except as provided in a contract amendment, if any.
- Unutilized pulpwood must be treated as slash per standard DNR contract requirements.
