 - Red Paint Line
 - Woods Roads
 - Town Roads
 - Snowmobile Trail
 - Section Corner
 - Lakes

- Shelterwood Area (17 Acres): Cut all oak NOT marked with purple paint and all merchantable maple and balsam fir.
- Overstory Removal Area (30 Acres): Cut all oak not marked with purple paint. Ignore green marked trees from previous harvest. Do not cut any pine. Protect pine and oak regeneration in the understory.

No harvesting will be allowed between April 15th and July 15th due to oak wilt restrictions.

The entire sale area lies within Management Area 5: Big Arbor Vitae Loamy Hills Forest Production

This map is not a survey of the actual boundary of any property this map depicts

NHAL TRACT NO. 32-19
Blue Island Oak II

Vilas County

Town 40 North, Range 7 East

Section 34 – NWNE, SWNE, NESW, SWSW, SESW

No bid bond is required.

15% of the total sale bid value will be required for performance bond.

The cutting area is approximately 47 acres.

The contract period is 2 years.

All trees that will yield one or more 100-inch sticks to the minimum 4” top diameter will be cut and utilized.

Biomass harvesting is not allowed.

ESTIMATED VOLUME (TONS)

<u>SPECIES</u>	<u>Minimum Top Diameter:</u>		<u>ADVERTISED PRICE</u> <u>PER UNIT</u>
	<u>4”</u>		
Balsam Fir	35		\$ 7.00
Red Oak	630		\$ 11.20
Mixed Hardwood ¹	175		\$ 13.30

ESTIMATED VOLUME (MBF)

Red Oak	110		\$ 306.00
---------	-----	--	-----------

Total Minimum Bid Value: \$43,288.50

¹ Mixed hardwood is approximately 67% hard maple and 33% soft maple by volume. Potential for 6 MBF hard maple sawlogs. (Wt. conv 2.452 tons/cord)

Total sale volume equates to 32.0 tons/acre or 11.9 cords/acre.

Special Conditions:

1. **Seasonal Restriction:** No cutting, skidding, or road building from April 15th to July 15th due to the risk of oak wilt.
2. **Ignore faded green paint marks on trees from previous timber sale.** Purple paint was used to identify leave trees for the current sale.
3. Cutting must be concurrent for all species to be harvested.
4. Do not cut, knock down, or utilize any dead trees unless they pose a safety hazard.
5. No felling of trees or leaving of slash across blue lines.
6. Felling and skidding damage to residual trees must be avoided, including understory seedlings and saplings.
7. All slash within 50 feet of Blue Island road will be lopped and scattered to within two feet of the ground and pulled back into the sale area at least 10 feet from the tree line concurrently with cutting.
8. Snowmobile trail must be kept free of debris and snow covered if hauling occurs during the winter.
9. All existing woods roads must be left in good condition for vehicle traffic and be restored to pre-harvest condition upon sale completion.
10. If the contract is to be worked on during multiple time periods a mid-contract “pull-off” inspection meeting will be required. One-week notice shall be given by the contractor prior to moving equipment off-site. During the “pull-off” inspection provisions needing attention will be documented. The contractor at this time can decide to remedy them before pulling off or rectify them when moving back onto the site. If the latter is chosen documented items shall be addressed before harvesting can continue.
