Special Conditions:

1. Cutting must be concurrent for all species to be harvested. Do not cut, knock down or utilize any dead trees.
2. No harvesting, skidding or road construction in Oak Stand from April 15<sup>th</sup> to July 15<sup>th</sup> due to the risk of oak wilt.
3. River Run Lane is a State Forest Road and must be repaired to pre-harvest condition when timber sale is completed.
4. No decking along River Run Lane. River Run Lane must be kept free of debris and left in good condition for vehicle traffic at all times.
5. All slash within 50 feet of the River Run Lane must be lopped and scattered to lie within two feet of the ground and pulled back at least ten feet behind the tree line concurrently with cutting.
6. All pine products cut between May 1 and September 1 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed prior to May 1 of each year.
7. If the contract is to be worked on during multiple time periods a mid-contract "pull-off" inspection meeting will be required. One-week notice shall be given by the contractor prior to moving equipment off-site. During the "pull-off" inspection provisions needing attention will be documented. The contractor at this time can decide to remedy them before pulling off or rectify them when moving back onto the site. If the latter is chosen documented items shall be addressed before harvesting can continue.
