   (Wt. conv. 2.033 tons/cord)
4 Included is an estimated 3 MBF of sawlog material.
5 Approximately 51% white birch and 49% soft maple. (Wt. conv. 2.338 tons/cord)

Note: Total sale volume equates to 45.6 tons/acre or 20.5 cords/acre.

Special Conditions:
1. Harvesting operations only permitted between October 15th and April 15th.
2. All slash within 50 feet of any road or trail must be lopped and scattered to lie within two feet of the ground and pulled back at least ten feet behind the tree line concurrently with cutting.
3. North Trout Campground
   a. Harvesting operations allowed only during frozen ground and snow-covered conditions.
   b. Cut down all dead trees in and around the campground, dump station and boat landing.
   c. Slash management – Lop and scatter slash to lie within two feet of the ground. Pile spruce tops and branches in areas where they can be reached by equipment at a later date.
   d. Do Not operate any equipment over septic fields around dump station.
4. Do not harvest 1-5” diameter trees within 50 feet of the paved bike trail.
5. Decking wood along paved state forest roads permitted with forester approval.
6. All pine products must be removed from the sale area prior to May 1 of each year.
