Special Conditions

- SEASONAL RESTRICTIONS:** Zone A – Oak Area: Harvesting operations permitted from July 15 – April 15.
Zone B – Aspen/Pine Area: Harvesting operations permitted from August 1 to March 19.
Once begun, all of Zone B must be harvested prior to its calendar end date.
- All landings and any new roads must be approved prior to sale start up. All roads must be cleared of debris and leveled upon sale completion.
- Slash within 50 feet of the Town Road must be lopped and scattered within 2 feet of the ground and pulled back at least 10 feet behind the tree line concurrently with cutting.
- Do not operate machinery within 15 feet of any ephemeral pond or wetland and do not deposit any slash or tops in them.
- All pine products cut between May 1 and September 1 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed prior to May 1 of each year.
- Cutting must be concurrent for all species.
- Do not cut, knock down or utilize any dead trees unless they pose an operational safety risk.
- If the contract is to be worked on during multiple time periods a mid-contract “pull-off” inspection meeting will be required. One week notice shall be given by the contractor prior to moving equipment off-site. During the “pull-off” inspection, provisions needing attention will be documented. The contractor at that time can decide to remedy them before pulling equipment off or rectify them when moving back onto the site. If the latter is chosen, documented items shall be addressed before harvesting can continue.
