**Total Minimum Bid Value:** $70,189.00

1. Approximately 80% Red Pine and 20% White Pine. Included within this volume is approximately 76 MBF of Red Pine and 13 MBF of White Pine sawlog sized material. Weight conversion – 2.218 tons/cord.
2. Approximately 70% Red Maple and 30% White Birch. Weight conversion – 2.311 tons/cord.

The total sale volume equates to approximately 30 tons/acre or 13 cords/acre.

1. Maintain all snags and den trees unless they pose a safety concern.
2. Cutting must be concurrent for all species to be harvested.
3. Wheeled and tracked vehicles will not be permitted to operate within 15 feet of the edge of wetlands during non-frozen ground conditions.
4. Trees may not be felled into wetland/swamp areas. All slash is to be kept out of wetland areas.
5. Slash within 50 feet of Town Roads and the snowmobile trail must be lopped and/or scattered to lie within two feet of the ground and pulled back at least 10 feet behind the tree line concurrently with cutting.
6. Decking will be permitted along the snowmobile trails, as indicated on the map, in select areas. Trails must be free of debris, always have snow cover and remain open to vehicle traffic. All trails must be repaired to pre-harvest conditions before the start of each snow season.
7. All pine products cut between May 1 and September 1 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed prior to May 1 of each year.
8. No sale activity, except trucking, allowed between April 15th and July 15th.
