Special Conditions:

1. Cutting must be concurrent for all species to be harvested.
2. No tops or slash allowed across any blue line, red line or within any wetland/keg areas. Slash must be lopped and scattered to lie within 2 feet of the ground and pulled back into the sale a minimum of 10 feet from wetlands, blue lines, and snowmobile trails.
3. Do not knock down or utilize any dead standing snags unless they pose an operational safety risk.
4. Soil rutting and damage to residual trees will NOT be tolerated.
5. If the contract is to be worked on during multiple time periods a mid-contract "pull-off" inspection meeting will be required. One week notice shall be given by the contractor prior to moving equipment off-site. during the "pull-off" inspection, provisions needing attention will be documented. The contractor at that time can decide to remedy them before pulling equipment off or rectify them when moving back onto the site. If the latter is chosen, documented items shall be addressed before harvesting can continue.
6. No new roads or landings without prior approval from sale administrator.
7. All pine products cut between May 1 and September 1 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed prior to May 1 of each year to mitigate Pine Bark Beetle issues.
8. All existing roads will be left in as good or better condition at completion and remain passable at all times.
9. Landings will be cleaned free of debris upon completion of hauling.
