Special Conditions:

1. All pine products cut between April 1 and September 1 must be removed from the sale area within three weeks from the time of cutting. Pine products cut during the remainder of the year must be removed prior to April 1 of each year.
2. No tops or slash allowed across any blue line, red line, or within any lowland. All slash, within 50 feet of town roads and the blue paint line, must be lopped and scattered within 2 feet of the ground and pulled back into the sale area at least 10 feet away from the adjacent private lands and town roads.
3. Do not harvest trees or operate machinery within 15 feet of any wetland or ephemeral pond. All other low areas are to be operated in during dry or frozen ground conditions to prevent rutting.
4. Cutting must be concurrent for all species to be harvested. Do not cut, knock down or utilize any dead trees unless they pose an operational safety risk. Biomass harvesting not allowed.
5. All landings and any new woods roads must be approved prior to sale start up.
6. If the contract is to be worked on during multiple time periods a mid-contract “pull-off” inspection meeting will be required. One-week notice shall be given by the contractor prior to moving equipment off-site. During the “pull-off” inspection, provisions needing attention will be documented. The contractor at that time can decide to remedy them before pulling equipment off or rectify them when moving back onto the site. If the latter is chosen, documented items shall be addressed before harvesting can continue.
