

Northern Highland – American Legion State Forest

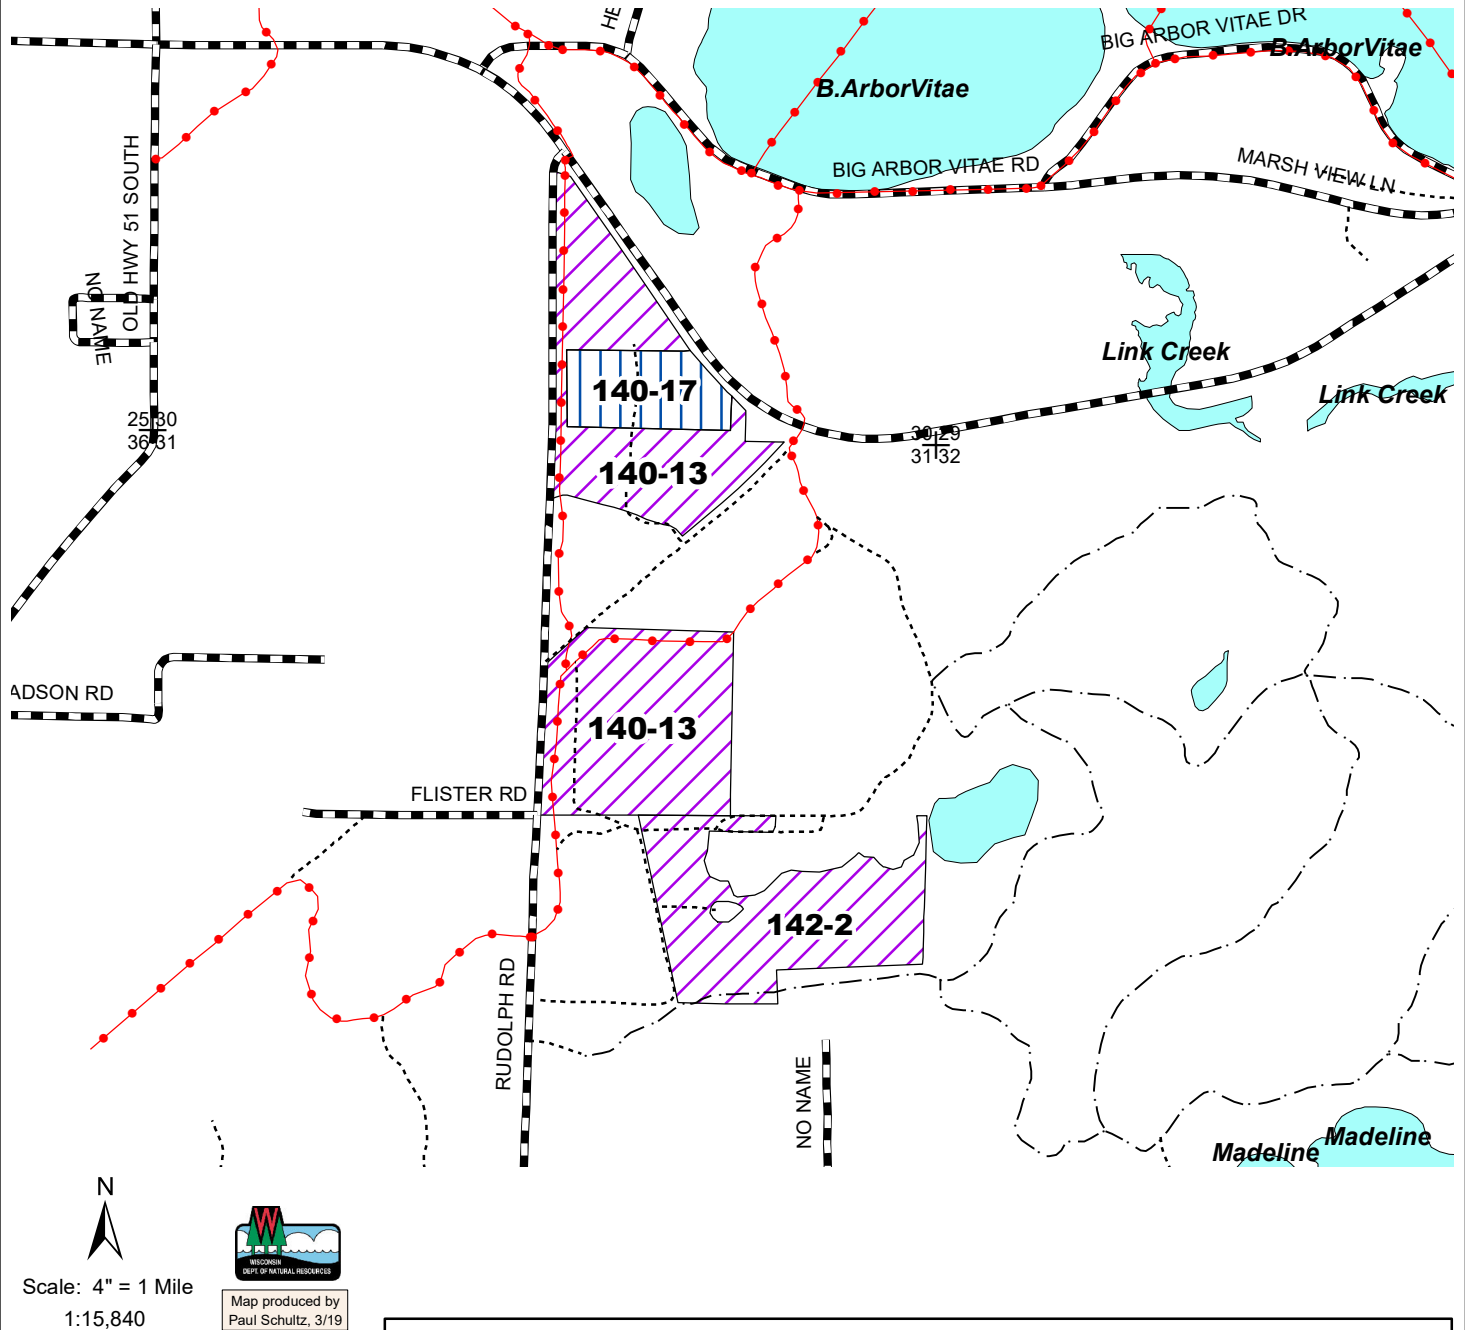

C140H Stands 13 & 17 C142H Stand 2

Mad Rudolph Pine 121 acres

Town of Arbor Vitae, Vilas County

T40N R7E Sec. 30 & 31

NHAL – SF Master Plan: Mgmt. Area 5 – Big Arbor Vitae Loamy Hills – Forest Production

Stand 140-17 (13 acres) is a 62-year old small sawlog white pine plantation. It was last thinned in 2014. It will receive another improvement thinning to maintain the growth and vigor within the stand.

Stands 140-13 and 142-2 (108 acres) are 62-year old small sawlog red pine plantations. They were also last thinned in 2014. They will receive another improvement thinning to maintain the growth and vigor within the stands.

This will be the fourth thinning in these highly-productive stands, which began as plantings in old abandoned farm fields. Some Asian Honeysuckle, an invasive plant, has been found and treated in this area in the past. Japanese Knotweed, another invasive, was also discovered during recent evaluations. Aesthetic and seasonal restriction considerations along Madeline and the snowmobile trail will likely be implemented.
