Map produced by  
 Brian Zweifel 11/19

This map is not a survey of the actual boundary of any property this map depicts.

C173H - Stand 8 (7 acres) is a 82-year-old red pine stand that is ready to for a thinning. The prescription will be a free thinning to reduce stocking levels and promote the growth and vigor of remaining crop trees

C174H - Stand 1 (43 acres) is a 66-year-old red pine plantation that is scheduled for a thinning. The prescription will be a free thinning to reduce stocking levels and promote the growth and vigor of remaining crop trees

C174H - Stand 6 (48 acres) is a 92-year-old oak stand with abundant advanced regeneration that received a shelterwood cut in 2014. The stand will receive an overstory removal harvest to release advanced regeneration. Larger diameter oak and pine will be retained with 5-10 trees per acre for wildlife and aesthetic purposes.

C174H - Stand 7 (24 acres) is a 52-year-old red pine plantation that is ready to for a thinning. The prescription will be a free thinning to reduce stocking levels and promote the growth and vigor of remaining crop trees

C175H - Stand 10 (58 acres) is a 104-year-old oak stand with abundant advanced regeneration that received a shelterwood cut in 2014. The prescription will be the same as C174H - Stand 6.
