Mgmt. Area 6 - Oneida Sandy Plains - Forest Production
Mgmt. Area 11 - Red & White Pines - Native Community

C42A Stands 1, 2, 3, 31 & 32
Helen Hawk 315 Acres

Area 6 - Oneida Sandy Plains- FPA & Area 11- Red & White Pine NCA
C42 St.1 (49 acres), C42 St.3 (37 acres) & C43 St.6 (19 acres)
are comprised of well-stocked 109 year old oak sawtimber. At this time these stands will be regenerated through an initial shelterwood harvest. The last thinning in this area was in 2007.

C42 St.2 (52 acres) & C43 St. 12 (43 acres) are composed of 123 year old large red & white pine sawtimber. These areas will be thinned from below to improve stand structure, growth and vigor while accommodating for old growth characteristics with large amounts of coarse woody debris. A portion of this stand was salvaged in 1999.

C42 St.31 (38 acres), C42 St.32 (37 acres) & C43 St.8 (6 acres) are variably stocked 123 year old red and white sawtimber. These stands will receive an improvement thinning to promote the health, vigor and stand structure. A portion of this stand was salvaged in 1999.

C43 St. 29 (13 acres) & C43 St.30 (21 acres) are well stocked with pole and small sawtimber red pine. These stands will receive an improvement thinning to maintain the growth and vigor of the red pine. Both stands were last thinned in 2015.
