Area 6: Oneida Sandy Plains

Stand 2 (31 Acres) is a 56 year old red pine plantation that is well stocked with small sawlogs. This stand was last thinned in 2013 and will receive another improvement thinning to maintain growth and vigor of the remaining trees.

Stand 3 (5 Acres) is comprised of a small sawlog size oak that was last thinned in 1999. This stand will receive an initial shelterwood cut to promote the regeneration of oak.

Stand 13 (20 Acres) is comprised of small sawlog size oak along with aspen and scattered pine. This stand was last cut in 2004 and is an aesthetic zone along Horsehead Lake. This stand will receive a light thinning to improve the health and vigor of the remaining stems.

Stand 18 (20 Acres) is a 39 year old red pine plantation that was last row thinned in 2013. This stand will undergo another thinning to improve the growth, vigor, and spacing of the remaining stems.
