Area 4: Vilas Sandy Plains Central

C79H Stand 1 (182 Acres) is an aspen stand with a year of origin of 1974. This stand was split from a larger block of aspen and will be regenerated using a coppice with standards. The other stand will be regenerated at a later time to create age class diversity on the landscape.

C79H Stand 2 (23 Acres) is comprised mainly of large sawlog size red pine along with other species. This stand will receive a thinning to promote the growth and vigor of the remaining stems.
