

**Willow Flowage Scenic Waters Area
Compartment 12 Stands 10, 14, & 15**

Willow Falls - 109 acres

Town of Lynne, Oneida County, T37N R4E Sections 13, & 14

**Willow Flowage Master Plan: Area 1 - Forested Backlands Forest Production and
Area 4 - Flowage Scenic Management Area**

Legend

-  Stand 10 Aspen
-  Stand 14 Northern Hardwood
-  Stand 15 Red Maple
-  Section Corners
-  Woods Roads
-  Town/County Roads
-  Lakes/Rivers
-  Boat Landings
-  Scenic Mgmt. Area

Stand 10 (83 acres) - is a 52 year old mixed aspen stand. The stand will be thinned within the Scenic Mgmt Area to convert to longer lived species. Areas outside of the Scenic Mgmt Area if large enough will be harvested to regenerate aspen.

Stand 14 (10 acres) - is an uneven-aged northern hardwood stand. This stand will be thinned along with having some gaps to allow for regeneration of more shade intolerant species.

Stand 15 (16 acres) - is 57 year old red maple / white birch mixed with a variety of other species. This stand will be thinned within the Scenic Mgmt Area to encourage conversion to longer lived species and regenerated within the Forest Production Area.
