Area 4 - Vilas Sandy Plains Central - Forest Production Area

C228H Stand 3 is twelve acres of overmature aspen along with a mixture of scrub oak, jack pine, red maple and red and white pine. The aspen, jack pine, maple and oak will be cut, with the goal of regenerating the aspen.

C229H Stand 1 (21 acres) is 30 years old, Stand 7 (9 acres) is 34 years old and Stand 15 (19 acres) is 35 years old; all small pole timber sized stands of red pine. All three of these stands will undergo a first thinning to release the residual pine and improve the health and vigor of the remaining trees.

This map is not a survey of the actual boundary of any property this map depicts.
