Hi Haley,

The Adams County Landfill Vertical Expansion project is covered by Table 1 of the [Broad Incidental Take Permit/Authorization for No/Low Impact Activities \(No/Low BITP/A\)](#), a formal ER Review letter is not needed and there are no actions that need to be taken to comply with state and/or federal endangered species laws. Any take that may result from the proposed project is permitted/authorized, and the ER Review fee is waived.

Specifically, the project is covered by Activity 1-A12, vertical landfill expansion, in Table 1 of the no/low: <https://dnr.wisconsin.gov/sites/default/files/topic/ERReview/bitpermit.pdf#page=6>. The no/low BITP/A covers projects that the DNR has determined will have no impact or a minimal impact to endangered and threatened species in the state.

Attached is an ER Review Verification Form for you to keep on file and submit with any other necessary DNR permit applications to indicate that ER requirements have been met. This notice only addresses endangered resources issues. This notice does not constitute DNR authorization of the proposed project and does not exempt the project from securing necessary permits and approvals from the DNR and/or other permitting authorities.

Please contact me if you have any questions.

Thanks,

Melissa

Hello.

We have vertical expansion request for a landfill. It has already been developed into a landfill so instead of expanding horizontally and taking up more space, it has been proposed to building the landfill taller. I have attached a Surface Water Data View map to show there are no wetlands in our area of concern. I have also attached the NHI- Preliminary Assessment. If able, I will attach a few old draft plans to show the space and grading better. Feel free to reach out with any questions.

Thank you,

Haley
