

Priority Landfill Topics

Resource Management Topics

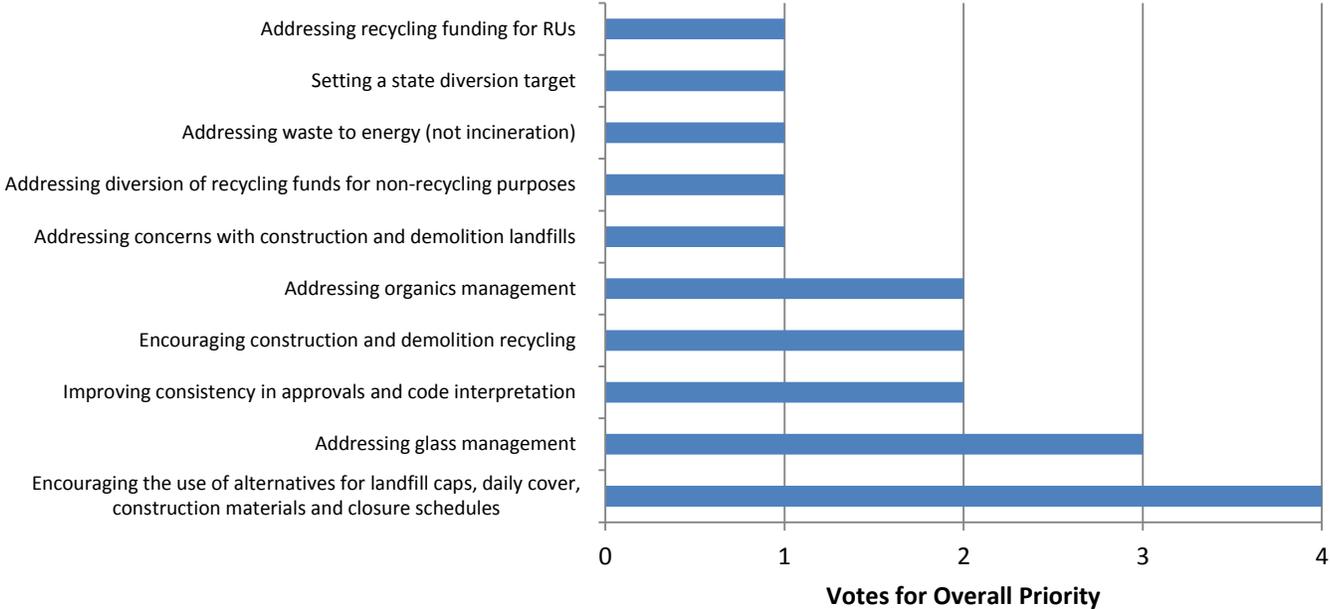

Regulatory Topics

Overall Priority Topics

All Topics Considered a #1 or #2 priority

Topic	Q1-Q3 category	adjusted score
Encouraging the use of alternatives for landfill caps, daily cover, construction materials and closure schedules	landfill	29
Addressing concerns with construction and demolition landfills	landfill	25
Improving consistency in approvals and code interpretation	regulatory	16
Improving clarity on landfill siting near wetlands	landfill	16
Discontinuing monitoring at closed landfills	landfill/regulatory	16/10
Addressing diversion of recycling funds for non-recycling purposes	regulatory	15
Cleaning up long term care and closure fee language	landfill	13
Fostering knowledge transition at the DNR through retirement transitions	regulatory	13
Addressing recycling funding for RUs	resource mgmt/regulatory	8/13
Encouraging Wisconsin's leadership in converting waste to resources - how can NR 500 improve this?	regulatory	12
Addressing glass management	resource mgmt	10
Encouraging construction and demolition recycling	resource mgmt	9
Addressing organics management	resource mgmt	8
Adjusting the waste hierarchy	regulatory	8
Fostering the most sustainable waste and materials management system possible	resource mgmt	8
Addressing waste to energy (not incineration)	resource mgmt	7
Addressing landfill operator certification requirements	regulatory	7
Addressing scrap tires and use	resource mgmt	7
Addressing recycling economic concerns	resource mgmt	7
Clarification of open burning rules	regulatory	6
Increasing options for using painted/treated wood as boiler fuel	resource mgmt	6
Encouraging alternative options for dredge disposal	resource mgmt	6
Adapting materials management to the changing waste stream	resource mgmt	6
Setting a state diversion target	resource mgmt	5
Determining how to define success in recycling beyond "table 1" materials	resource mgmt	5
Acknowledging recycling success outside of landfill banned materials	resource mgmt	5
Encouraging the use of fines/drywall as fill and for animal bedding	resource mgmt	4
