LANDFILL FACILITY INSPECTION FORM - OPERATIONS SUPPLEMENT

This inspection form, when used along with the LANDFILL FACILITY INSPECTION FORM - GENERAL form, evaluates daily procedures and practices to assess if the site is accepting appropriate wastes and handling them properly.

Section 1: General Operating Requirements

A. A certified operator or facility manager present during hours of operation and a list of	506.07(1)(i)
certified operators or facility managers maintained at the landfill.	
B. Scavenging within the active disposal area prohibited.	506.07(1)(o)
C. Access roads to active area all-weather construction and maintained in good condition.	506.07(1)(s)
C. Access roads to active area an-weather construction and maintained in good condition.	500.07(1)(8)
D. Access roads used by solid waste hauling trucks constructed with less than 10% grade.	506.07(1)(t)
E. Daily Cover	
Clay soil scarified or removed prior to placement of the next lift of solid waste.	506.05(1)
The day doings a miner of placement of the most lift of colla waster	000.00(1)
Alternate daily cover materials approved for use by Department.	506.055
Alternate daily cover material on-site storage properly maintained prior to use.	506.055(1)(d)
4. Untreated contaminated soil used for alternative cover or facility structures does not impair	506.105(1)(a)2
operation of the landfill, cause windblown problems, ponding of storm water or other nuisance	
conditions.	
Section 2: Waste Screening Requirements	
Section 2: Waste Screening Requirements	
Random load inspections conducted on every 5,000 tons of waste accepted or one	506.16(1)(a)
	506.16(1)(a)
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month *	
	506.16(1)(a) 506.16(3)
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * Random load inspection performed by NR 524 certified landfill operator or manager.	506.16(3)
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month *	
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * Random load inspection performed by NR 524 certified landfill operator or manager.	506.16(3)
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * Random load inspection performed by NR 524 certified landfill operator or manager.	506.16(3)
Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * Random load inspection performed by NR 524 certified landfill operator or manager. Non-approved waste rejected and handled according to applicable regulations.	506.16(3)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years.	506.16(3)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. Section 3: Select Waste Handling Requirements	506.16(3)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years.	506.16(3)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. Section 3: Select Waste Handling Requirements	506.16(3)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. Section 3: Select Waste Handling Requirements A. Asbestos material disposal	506.16(3) 506.16(5) 506.17
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. 5. Select Waste Handling Requirements A. Asbestos material disposal 1. Facility is approved for category I, category II and friable asbestos.	506.16(3) 506.16(5) 506.17 506.10(1)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. Section 3: Select Waste Handling Requirements A. Asbestos material disposal	506.16(3) 506.16(5) 506.17
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. Section 3: Select Waste Handling Requirements A. Asbestos material disposal 1. Facility is approved for category I, category II and friable asbestos. 2. Category II and friable asbestos disposed in a trench excavated into existing refuse and covered with at least 3 feet of solid waste or soil prior to compaction.*	506.16(3) 506.16(5) 506.17 506.10(1) 506.10(2)(a)
1. Random load inspections conducted on every 5,000 tons of waste accepted or one inspection per month * 2. Random load inspection performed by NR 524 certified landfill operator or manager. 3. Non-approved waste rejected and handled according to applicable regulations. 4. Random load inspection records maintained for a minimum of 3 years. 5. Section 3: Select Waste Handling Requirements A. Asbestos material disposal 1. Facility is approved for category I, category II and friable asbestos. 2. Category II and friable asbestos disposed in a trench excavated into existing refuse and	506.16(3) 506.16(5) 506.17 506.10(1)
