

## Appendix F. Secondary Indicator Scores for NCCW and Industrial Discharges in the “Other” Category

Last Revised: August 2023

The following table provides the secondary indicator score for facilities considered to be NCCW or “other” as described in the Updated Economic Determination. Please refer to Section 5 of that report for details on each economic metric, why it was selected, and how the scoring process worked. All shaded cells in this table indicate that the cell value exceeds the indicator threshold, and contributes to the secondary indicator value. The total secondary indicator value in the last column of this table provides the secondary indicator total, which is the value used to determine eligibility for the MDV.
