

## **Public Notice**

Under § 30.206, Wis. Stats., the Department of Natural Resources is noticing its intent to reissue three statewide waterway General Permits (WDNR-GP6-2026 for Fish & Wildlife Habitat Structures, WDNR-GP19-2026 for Permanent Boat Shelters, and WDNR-GP21-2026 for Waterway Crossings), and to issue three new statewide waterway General Permits (WDNR-GP26-2026 for Lakeshore Stabilization Structures, WDNR-GP27-2026 for Streambank Stabilization Structures, and WDNR-GP28-2026 for Miscellaneous Structures). Once in place, each permit will be valid for 5 years and will allow members of the public to apply for coverage under the permit. To qualify for a general permit, proposed projects must meet all eligibility criteria and permit conditions.

The Department has determined the reissuance and issuance of the listed statewide general permits have similar proposed actions in kind, scale, and environmental setting to other activities under ch. NR 150.20(3)(a), Wis. Adm. Code, and will result in minimal adverse environmental impacts. To view a copy of the proposed statewide general permits, go to <https://dnr.wisconsin.gov/permits/water/notices.html>.

A virtual informational hearing will be held on Microsoft Teams on March 5, 2026, at 1:00-2:00 pm.
