

Mitigation Summary Worksheet for Nonfederal Wetland Exemption

(Rev. 4/2018)

Notice: Pursuant to § 281.36(4n) (e), Wis. Stats., this Mitigation Summary Worksheet must be completed in its entirety and submitted to the Department of Natural Resources (DNR) with the Nonfederal Wetland Exemption Notification. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin Open Records law [§§ 19.31 - 19.39, Wis. Stats.]

This Mitigation Summary Worksheet is required for DNR Nonfederal Wetland Exemption Notifications as wetland compensatory mitigation is required under certain circumstances. The applicant, or authorized representative, shall complete all fields below and submit this along with their required notification materials.

Mitigation can be fulfilled through the following options, in order of preference: purchasing credits from an approved mitigation bank, purchasing credits from the Department's WI Wetland Conservation Trust (In-Lieu Fee) program or completing a permittee-responsible mitigation project. The Department will determine the appropriate mitigation option and calculate credit requirements based on the options available at the time of review.
