**Eligibility Criteria Notes**

*Rare and high quality wetland types: certain projects can't impact Great Lakes ridge and swale complexes, inter-dunal wetlands, coastal plain marshes, emergent marshes containing wild rice, southern sphagnum bogs, boreal rich fens, or calcareous fens*

*Spawning/breeding habitat, migratory protection: no significant adverse impacts to these areas, time of year restrictions*

*Stormwater projects: wetland impacts cannot be for stormwater features*

*Maintain wetland hydrology: projects must be conducted to maintain hydrology in surrounding wetlands*

*Conservation projects: must follow Natural Resources Conservation Service (NRCS) technical standards, can't negatively impact cold water communities*

*Threatened/endangered species: not eligible for GP if project would likely jeopardize continued existence of T/E species*

*Historical/cultural resources: no adverse impacts, compliance with s. 44.40*

*WDNR-GP1-2017: does not authorize fill to create a buildable lot to be sold/developed at a later date*

*Avoid and minimize: pass analysis of practical alternatives in accordance with 281.36(3n)*
