SPECIAL SALE CONDITIONS:**Seasonal and Equipment Conditions**

Equipment use will be permitted during very dry or frozen ground conditions due to wet soil conditions.

No cutting during the months of April, May, or June in selection harvests due to bark being easily damaged at these times.

Harvesting and forwarding operations shall be completed in a way to preserve existing regeneration.

Within the timber sale, the contractor will be required to directionally fell trees into harvester path, limb/top in same path, with forwarder following harvester path. This is to protect the existing saplings and poles.

Roads/Access/Decking

When decking on hunter/walking access, all slash, ends, and debris must be removed from the roads and ditches concurrently with each truckload. Woods trails shall remain open and free of debris.

Any damage to the gate must be repaired by the contractor at sale completion.

BMP's

Access to the sale will require a temporary instream crossing using poles, timber mats or snowpack to cross stream. All conditions of the temporary instream crossing permit, which will be obtained by the Flambeau River State Forest, will be followed by the contractor.

All additional restrictions listed in prospectus and standard contract apply unless specified.

Contact Justin Cook with questions and for the combination to the gate lock at 715-332-5271 Ext 109 or justin.cook@wisconsin.gov. Please do not go around gate.
