The performance bond will be 15% of the total sale value. **The contract end date is June 30, 2029**

SPECIAL SALE CONDITIONS:

Equipment use will be restricted to very dry or frozen ground conditions due to wet soil conditions on portions of sale.

Use of a continuous rotating saw head will not be allowed in the selection area due to density and distribution of regeneration. **Extreme caution** must be used to protect existing hardwood regeneration. If regeneration is not protected, the contractor may be required to directionally fell trees into harvester path, limb/top in same path, with skidder following in harvester path.

All slash within 100' of River Road and Frog Pond Road will be lopped and scattered to within 2' of the ground.

No cutting during the months of April, May, or June in selection harvests due to bark being easily damaged at these times.

Permission is required from Cedar Rapids Township to deck on River Road.

If decking is on Frog Pond Road and River Road (if permitted), all logging debris will be removed from road and ditches concurrently with each truck load. The woods road along the Rusk County Forest must be kept open and free of debris.

Debris berms are required at locations designated on map.

No new access points will be permitted. New road construction and culvert installation was recently completed by the state forest east of River Road for access to northern portion of sale. Any other new roads or access points will require Forester permission.

All additional restrictions listed in prospectus and standard contract apply unless specified.
