

Tract 5-26 (Triple H)– Flambeau River State Forest
SE SE Section 26, NE Section 35 - T38N R3W Town of Winter, Sawyer County

95 Acres

<u>Species</u>	<u>Estimated Volume</u>	
¹ Mixed Pulp	925 tons	Minimum Acceptable
Aspen	5000 tons	<u>Bid for Entire Sale</u> \$54,625.00

¹Mixed pulp includes 51% red maple, 19% cherry, 14% hard maple, 7% yellow birch, and 9% ash, white birch, elm, and ironwood combined. Mixed pulp also includes < 1 MBF of red maple and cherry.

Other species not mentioned will be charged at the mixed pulp price.

The performance bond will be 15% of the total sale value. **The contract end date is June 30, 2029.**

SPECIAL SALE CONDITIONS:

In the aspen/hardwood area, the contractor will be required to directionally fell trees into harvester path, limb/top in same path, with forwarder following harvester path. This is to protect the existing saplings and poles.

Operations are permitted during very dry or frozen ground conditions.

No harvesting in the selection area during April, May, and June due to softness of the bark.

To make areas of sale operable during dry conditions, existing trails will most likely need pit run material. The state will provide pit run material, but it will be the responsibility of the contractor for loading/hauling/leveling of the pit run.

Landing size not to exceed 100' by 200'.

All slash, ends, and debris must be removed from Popple Road and ditches concurrently with each truckload.

All additional restrictions listed in prospectus and standard contract apply unless specified.
